

In California, elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies. When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds.

They only work with their frat buddies and insiders in a tribal 'old boys club' manner.They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption. They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime".

The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube

hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes!

An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking. This entity is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them. Tesla Scrambles For Lithium As Prices Double; Elon Musk and Silicon Valley Accused of Pushing War in Afghanistan

- Lithium batteries explode, cause fires, crash planes, cause wars, release cancer causing and fetus mutating vapors when they are on fire and fill the bank vaults of Elon Musk.

By James Stafford

Demand for lithium—the hottest commodity on the planet and the only commodity to show positive price movement in 2015—is poised to continue on its upward trajectory, becoming the world's new gasoline and earning the moniker of "White Petroleum". And the battle for market share in and around this commodity has everyone from major tech players to trend-setting investor gurus vying for a foothold.

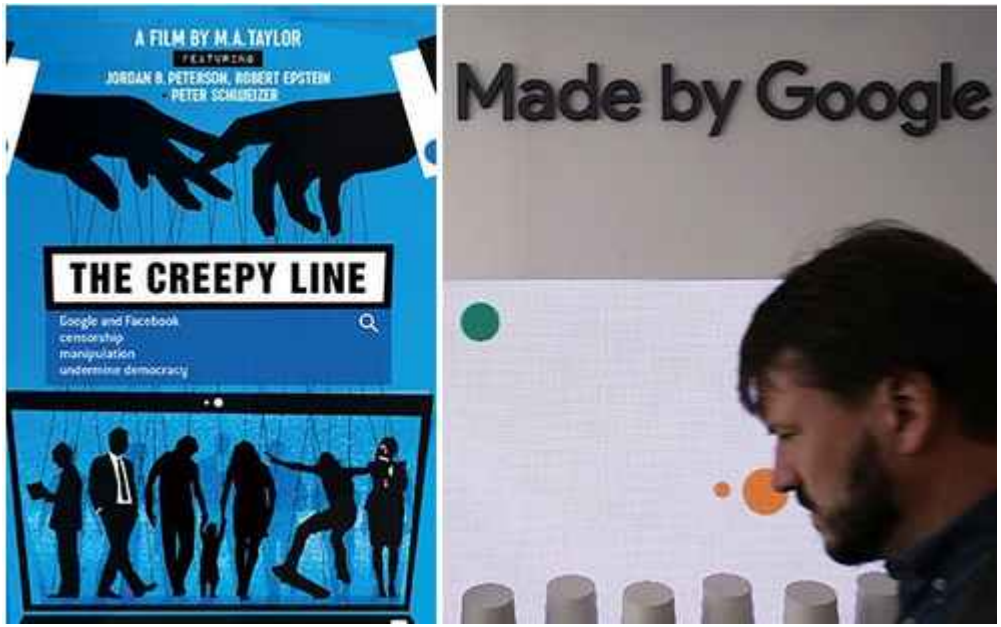

Driven by the rise of battery gigafactories and game-changing Powerwall and energy storage businesses, the world now finds itself at the beginning of a lithium super cycle that is all about securing new supply, much of which is poised to come from lithium superstar Argentina.

We have Tesla in the far corner, building its battery gigafactory in Nevada, for which it needs tons of lithium at a reasonable price, and just last week Tesla announced its plans for the Model 3, which has already hit over 300,000 pre-orders. To give you an idea of just how meaningful this is, Tesla produced less than 50,000 cars last year. Elon himself mentioned during the unveiling that Tesla will be gobbling up much of the world's lithium supply with plans to produce 500,000 EVs per year. "In order to produce a half million cars per year…we would basically need to absorb the entire world's lithium-ion production." Remember – this is one man, one company. Tesla's soon-to-be-completed gigafactory will

some Odd ends

A reader who has kept a copy since we first published it in April, 1970, has suggested that "lest we forget" the following be published again:

In May of 1919 at Dusseldorf, Germany, the Allied Forces obtained a copy of the Communist Rules for Revolution. Fifty years later the Reds are still following these rules.

A. Corrupt the young, get them

2. Divide the people into hostile groups by constantly harping on controversial matters of no importance.

3. Destroy the people's faith in their natural leaders by holding the latter up to contempt, ridicule and obloquy.

4. Always preach true democracy, but seize power as fast and as ruthlessly as possible.

5. By encouraging government extravagance, destroy its credit, produce fear of inflation with rising prices and general discontent.

6. Foment unnecessary strikes in vital industries, encourage civil disorders and foster lenient and soft attitude on the part of government toward such disorders.

After all, the company makes batteries for electric cars and it has a manufacturing plant in Indiana, so it benefits American workers. Plus, the market for these batteries should take off as America tries to reduce the amount of fossil fuels used to power our vehicles. Here's how Barron's describes Ener1's growth potential:

> If Ener1 were to win 5% to 12% of a million-vehicle battery market, the company estimates, it could pull in $2.1 billion in annual revenue with 15% margins (based on earnings before interest, taxes, depreciation and amortization). "If you want to apply a 15 times multiple to that cash flow, which in any normal market is a reasonable growth market, you're talking about a $4.5 billion equity-market cap," says CEO Charles Gassenheimer.

To help expand its facilities here, Ener1 has applied for a $480 million loan from the US Department of Energy and plans to apply for some of a $2 billion dollar grant that is part of the Advanced Battery Manufacturing Initiative in the stimulus plan.

However, questions about the company's ownership are complicating the application process. Here's how the Barron's article I linked to above explains the problem:

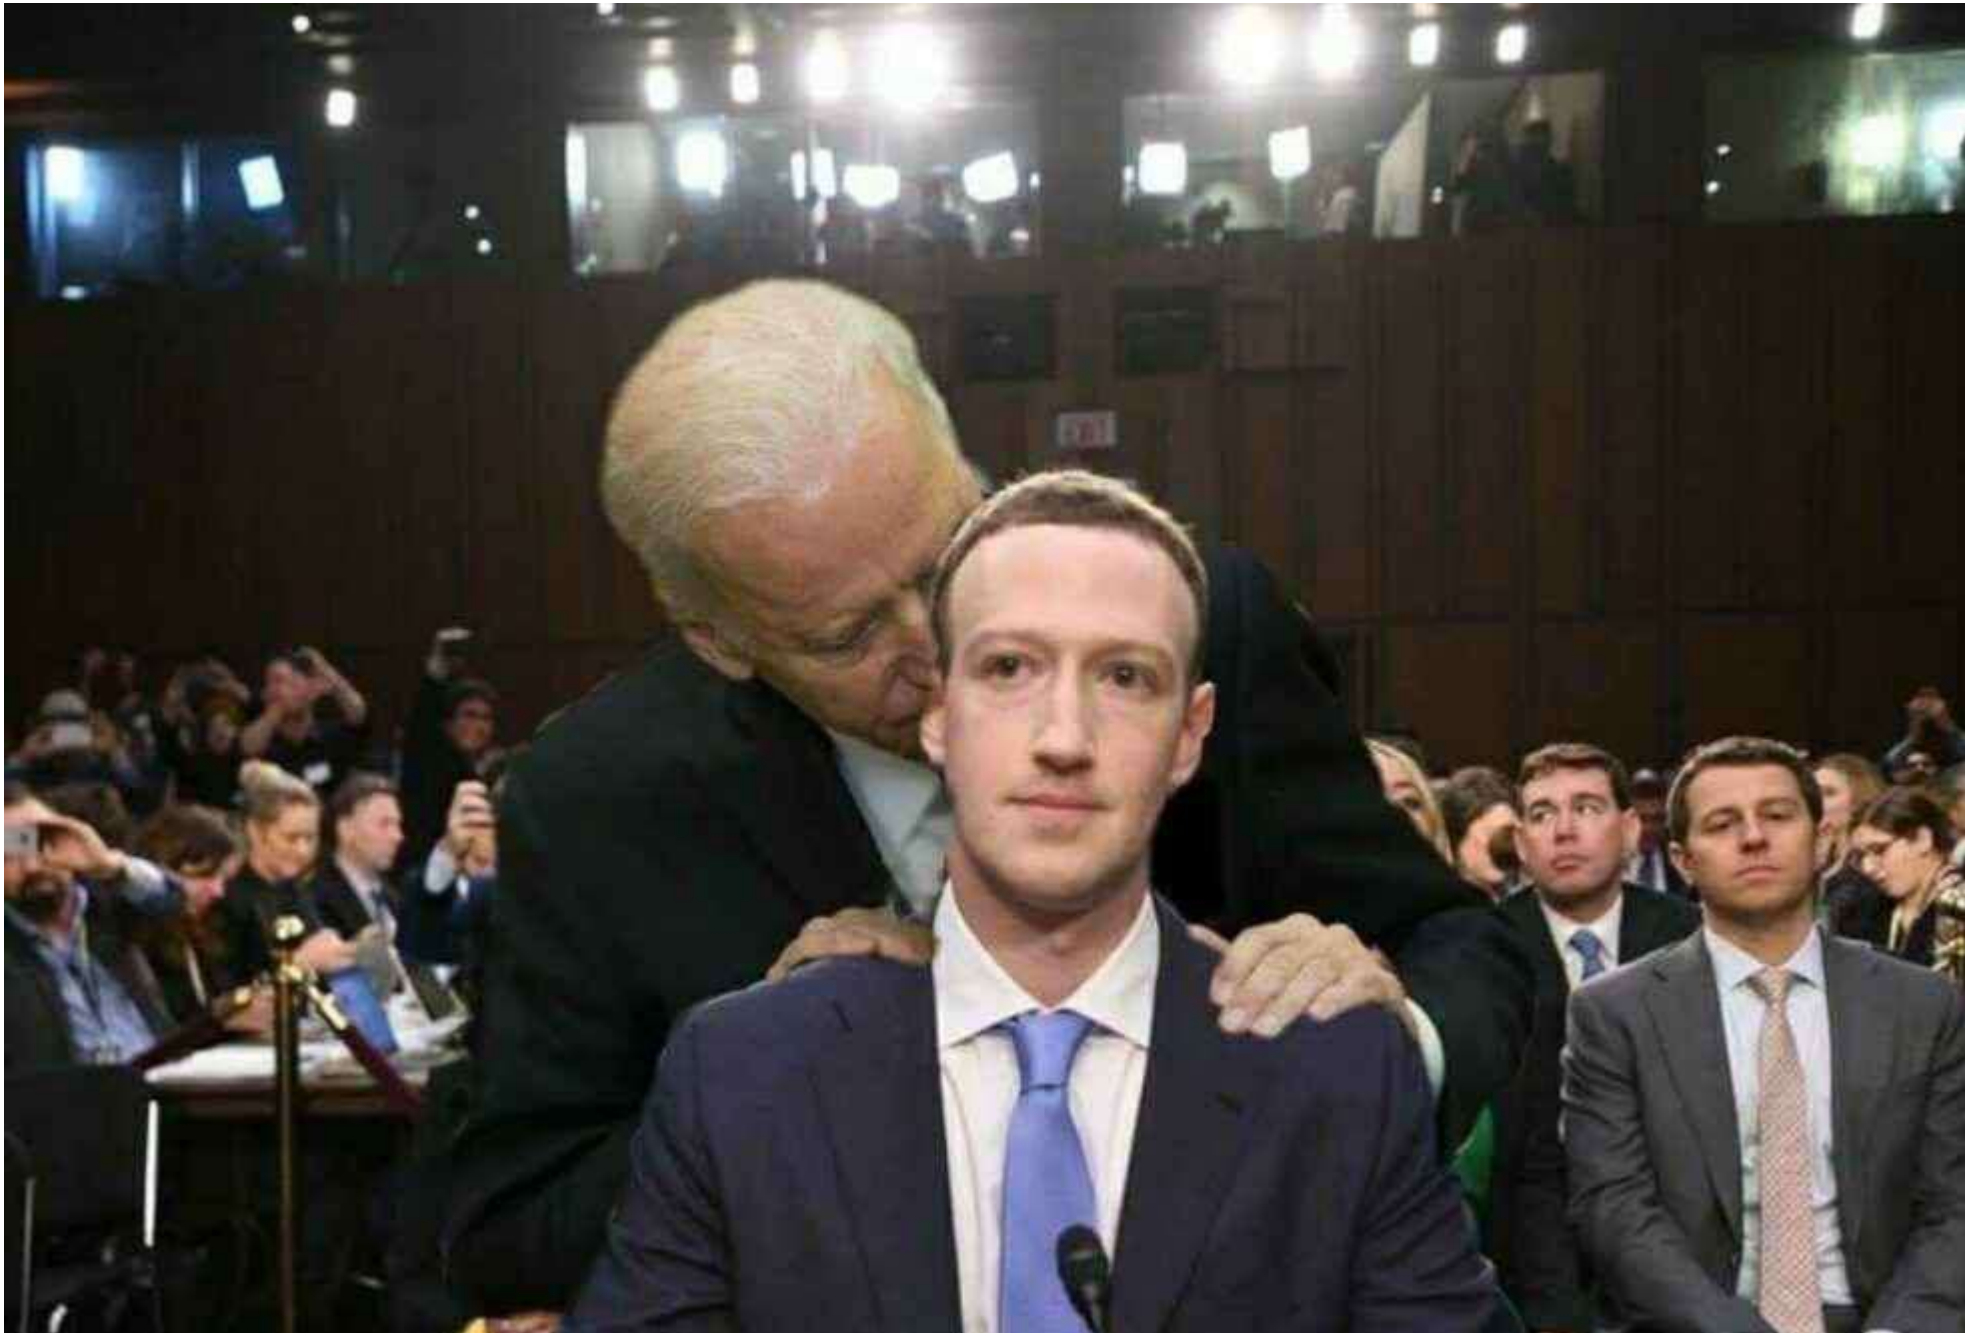

> As of late February, some 62% of Ener1's outstanding shares were owned by privately held Ener1 Group. In turn, 66% of Ener1 Group — a recent participant in a $5.7 million loan to Think Global, which is trying to emerge from bankruptcy — is held by Bzinfin, a British Virgin Islands company whose "indirect beneficial owner" is Boris Zingarevich, a Russian businessman. Zingarevich has close ties to Russian President Dmitry Medvedev and Prime Minister Vladimir Putin.

This is a concern for the Department of Energy. There are fears that if Ener1 develops a successful battery, all of the research and development funded with DOE loans and grants could be transferred back to Russia, especially since there are also military applications for the technology.

3.6 *Obedience* is a direct form of social influence where an individual submits to, or complies with, an authority figure. Obedience may be explained by factors such as diffusion of responsibility, perception of the authority figure being legitimate, and socialisation (including social role). Compliance can be achieved through various techniques including: Engaging the norm of reciprocity; engendering liking (e.g., via ingratiation or attractiveness); stressing the importance of social validation (e.g., via highlighting that others have also complied); instilling a sense of scarcity or secrecy; getting the "foot-in-the-door" (i.e., getting compliance to a small request/issue first); and applying the "door-in-the-face" or "low-ball" tactics (i.e., asking for compliance on a large request/issue first and having hidden aspects to a request/issue that someone has already complied with, respectively). Conversely, efforts to reduce obedience may be effectively based around educating people about the adverse consequences of compliance; encouraging them to question authority; and exposing them to examples of disobedience.

3.7 *Conformity* is an indirect form of social influence whereby an individual's beliefs, feelings and behaviours yield to those (norms) of a social group to which the

MEMORANDUM FOR RECORD

SUBJECT: Illegal use of FISA Warrants to unmask and surveil American citizens for Political Purposes

Investigation 1 of 22 at DOJ Re: FISA

Investigation 001: Breach of the Democratic National Committee Breach/Dossier

Through the course of our investigations we have determined that the Democratic National Committee was Breached by an individual named Seth Rich. At the time of the breach, Mr. Rich was employed by the Democratic National Committee at the time of the breach. During said period of employment, Mr. Rich broke into the IT Server Room, and transferred the files from the server to an external hard drive. This investigation concludes that the transfer rate of files was consistent with a local breach; and does not align with assertions that the breach occurred through a transfer over the Internet.

Once the information had been downloaded off of the server, it was emailed to Wikileaks secure file drop site. As noted on previous President Daily Briefings, President Obama was aware of ongoing operations that had continuous monitoring of the Wikileaks secure drop site. Individuals aware of this file transfer from Mr. Rich to Wikileaks included Director of National Intelligence James R. Clapper, and Central Intelligence Agency Director John O. Brennan. Upon receipt of this information, Mr. Clapper and Brennan met with [redacted] these twelve individuals continue to be monitored, and are the subjects of latter investigations

1. INTRODUCTION

Lithium ion batteries have been widely used on personal computers and mobile phones for their high-voltage, high-energy-density characteristics [1-4]. Especially, the rapidly need for cleanly resource and crisis of energy, lithium ion batteries attract more attention as the power source of electric and hybrid electric vehicles. However, Lithium ion batteries have not been large-scale applied to electric vehicles for the safety issues, the volatile and flammable organic solvent organic solvents is the main components of electrolytes in lithium ion batteries, the cases of flaming, smoking or thermal runaway caused by electrolytes are the main reason for the safety problem. Therefore, electrolyte system, which has more stable features, is necessary to be found.

[redacted]—

Apologies for the delay in responding. Jay and I wanted to be sure we did a thorough job of chasing down potential Intelligence Community interest. Sometimes it takes us longer than expected to get clarity on whether or not we're likely to get traction with our customer base on any given deal.

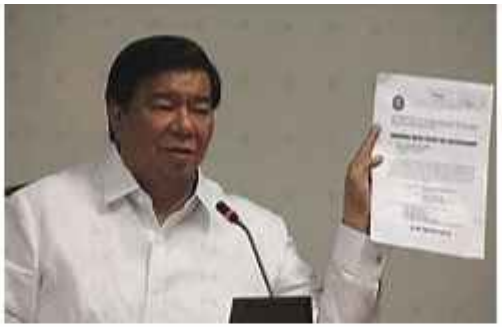

We've been discussing [redacted] technology with several intelligence groups who might be good candidates for your capabilities, and to date, we have not been successful in obtaining customer support for a transaction. We have been impressed by your business concept and the tremendous potential for [redacted], but it does not appear that is likely to translate into a similar level of interest with our intelligence customers. So, rather than draw things out any further, we thought it best to convey what we'd found to this point and close out this round of discussions.

Congratulations on your efforts to date. It sounds like [redacted] might be onto something interesting, and we look forward to continuing to follow your progress. Thanks again for taking the time to talk to us about the opportunity.

Best regards,

U.S. Department of Energy
Washington, D.C.

Dear Secretary Chu,

Today Bright Automotive, Inc will withdraw its application for a loan under the ATVM program administered by your department. Bright has not been explicitly rejected by the DOE; rather, we have been forced to say "uncle". As a result, we are winding down our operations.

Last week we received the fourth "near final" Conditional Commitment Letter since September 2010. Each new letter arrived with more onerous terms than the last. The first three were workable for us, but the last was so outlandish that most rational and objective persons would likely conclude that your team was negotiating in bad faith. We hope that as their Secretary, this was not at your urging.

The actions – or better said "lack of action" -- by your team means hundreds of great manufacturing and technical jobs, union and non-union alike, and thousands of indirect jobs in Indiana and Michigan will not see the light of day. It means our product, the Bright IDEA plug-in hybrid electric commercial vehicle, will not provide the lowest total cost of ownership for our commercial and government fleet customers, saving millions of barrels of oil each year. It means turning your back on a bona fide step forward in our national goal to wean America

The Silicon Valley tech Cartel (AKA: "Paypal Mafia", "Deep State") is evil because these racist, ageist, sex-trafficking, money-laundering, elitist, politician bribing, tax evaders: steal any technology they desire; They manufactured the CLEANTECH CRASH as shown in the 60 MINUTES episode of the same name; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are 'rape culture' take-what-they-want misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI & SEC investigations

They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times; They have bought up all of the Tier-One tech law firms and order them to black-list, and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws.

Silicon Valley has become the largest assemblage of douche-bags and yuppie frat boy criminals in human history. Theranos is not the exception, it is the standard. Tesla, Google, Theranos, Wework, Facebook are lies backed by famous political insiders to protect their insider

trading and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors.When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI! The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy! When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, via corruption, then it is impossible for that Senator to ever do anything but be corrupt!

We have reported this in writing to winklerm@sec.gov, sanfrancisco@sec.gov and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is? Take a look at how many TRILLIONS of dollars pass through the stock markets annually and then look at the reported, AND UNREPORTED, securities holdings of famous U.S. Senators

and government agency staff. That is what Seth Rich and the people in the "In Memory Of" section, below, were disclosing. These are massive crimes! The perpetrators operate a massive and abusive national sex cult.

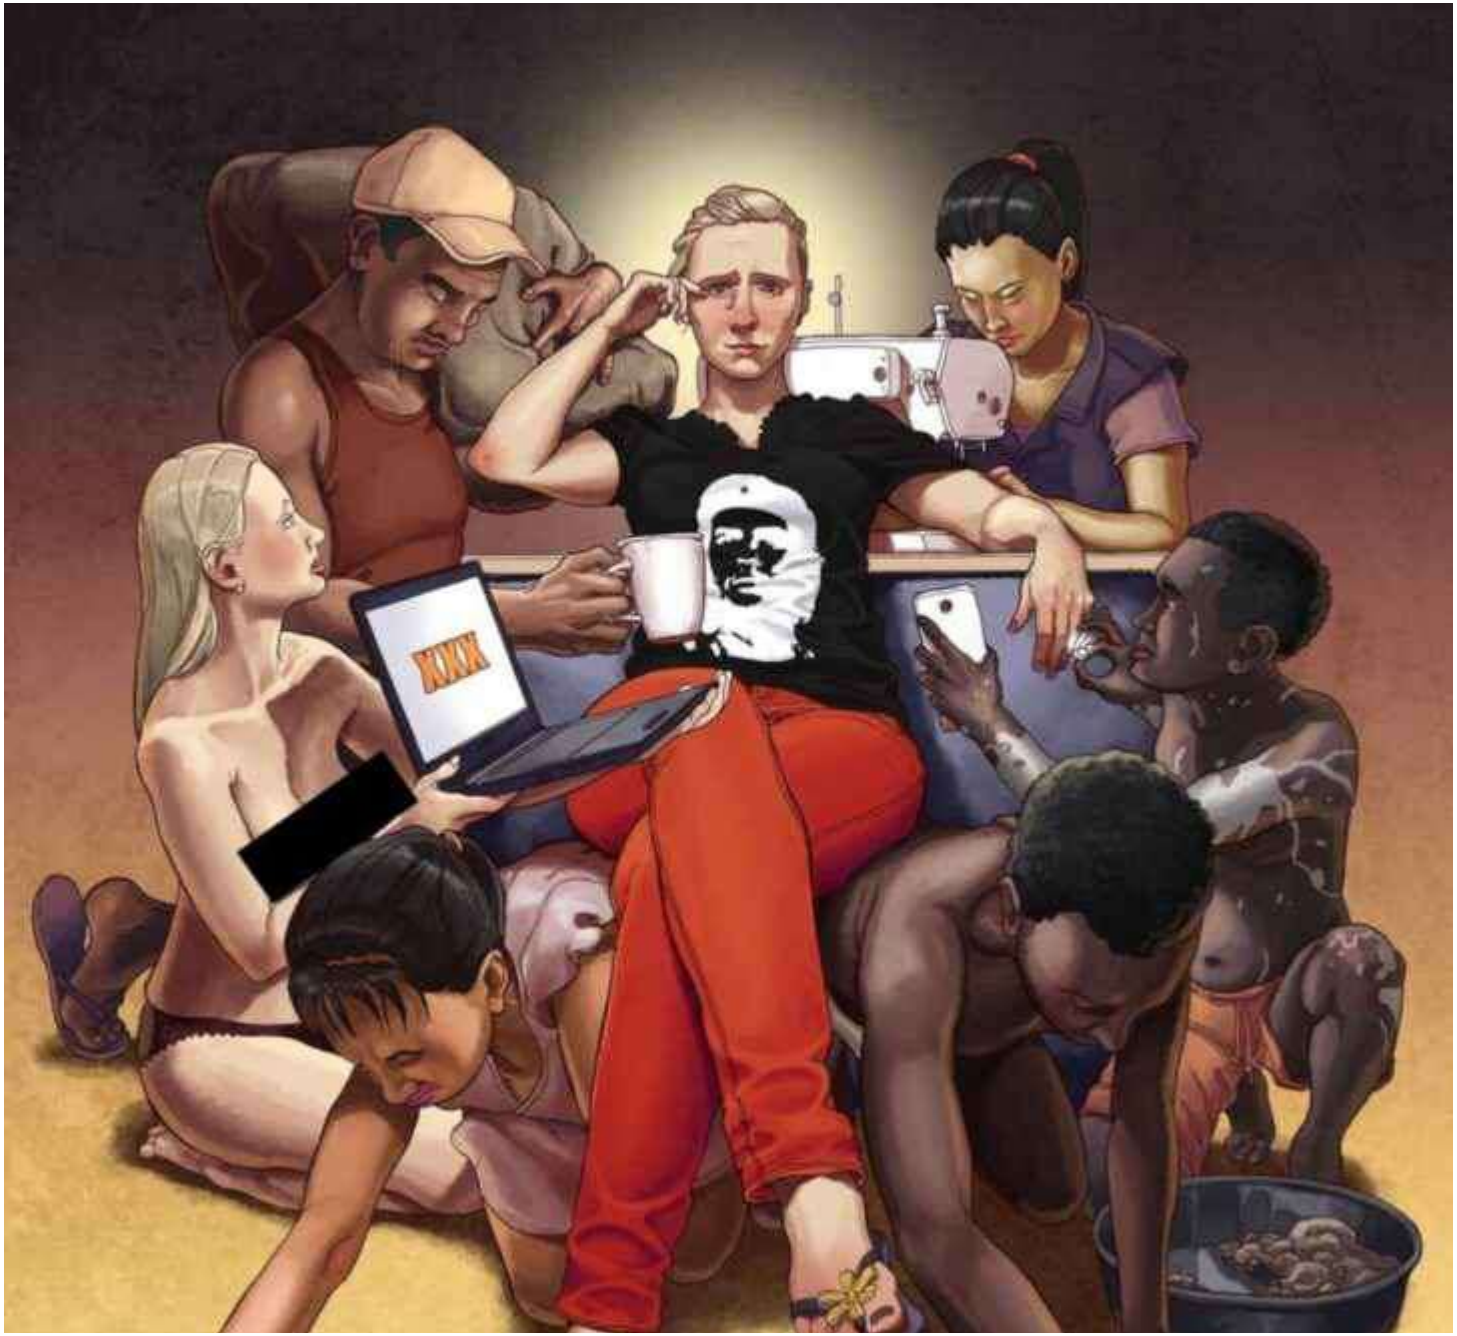

The perverts in the SandHill Road Venture Capital offices, located between Highway 280 down to to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, Linkedin, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and Ed Buck sex scandals are well known.

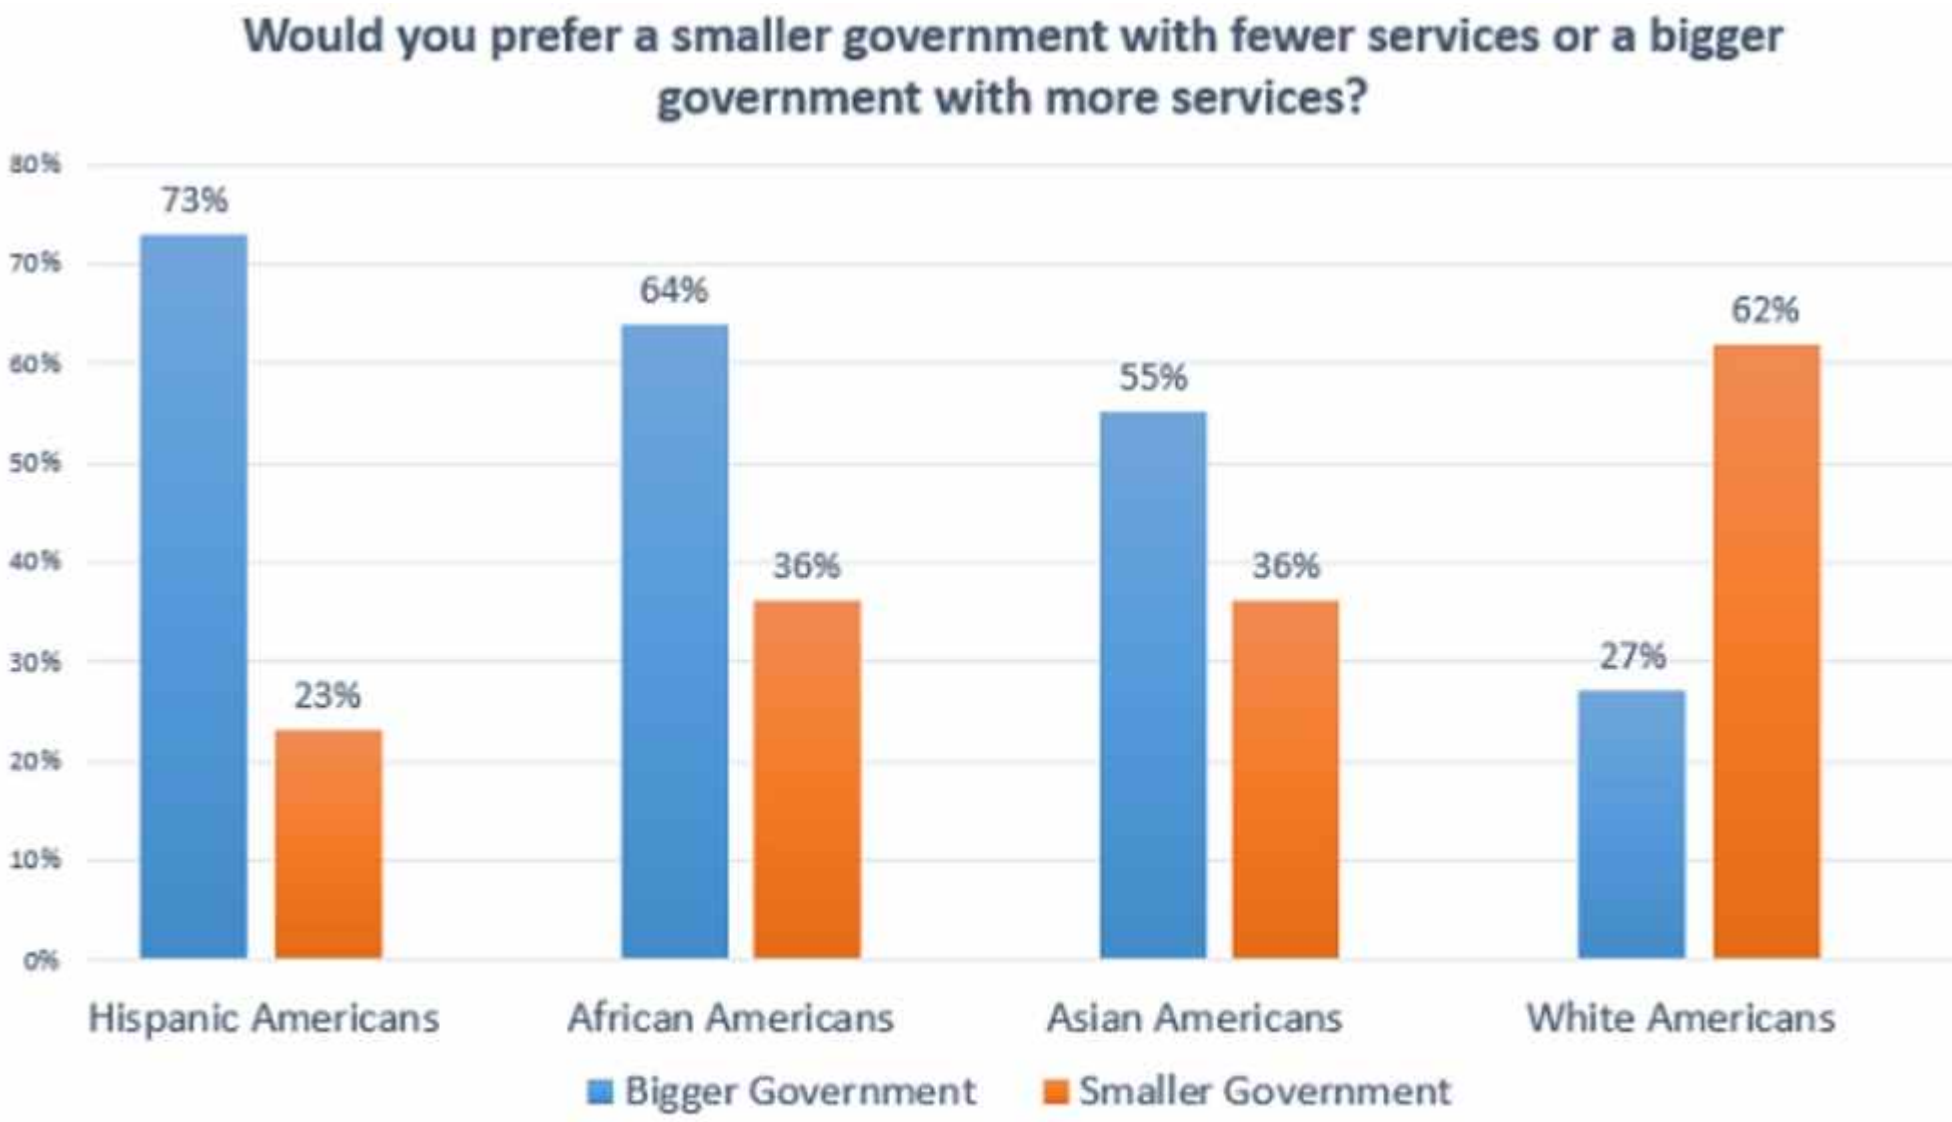

KKK

These men's sex cult actions have been widely covered in the news individually in the Joe Lonsdale rape case, The Kleiner Perkins Ellen Pao sex abuse lawsuit, The Eric Schmidt sex penthouse stories, The Jeffrey Epstein case, The Google Forrest Hayes hooker murder case, The Andy Rubin sex slave case, The Sergy Brin 3-way sex romp scandal, The British Hydrant investigation, The Elon Musk Steve Jurvetson billionaire sex parties scandals,The NXIVM sexual slave cases, The Michael Goguen anal sex slave trial, The Tom Perkins Hooker Parties and thousands of other cases and federal divorce court filings.

This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over $30,000.00

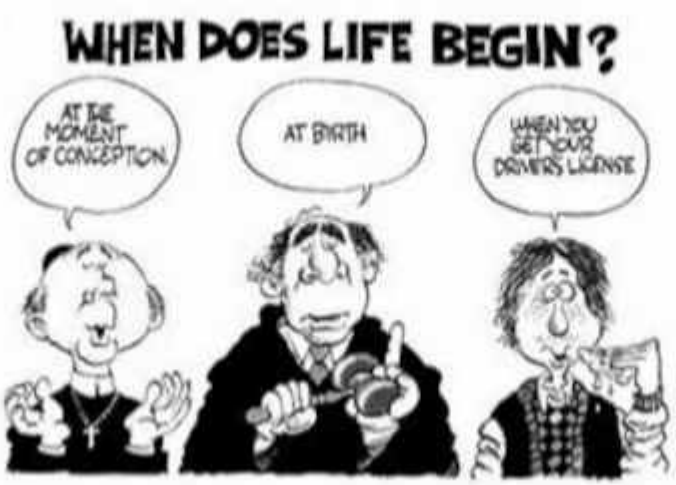

of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. The Elon Musk sex perversions are the tip of the iceberg. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members. Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. Google's Eric Schmidt is under massive investigation.

You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: Eric Schneiderman and Eliot Spitzer, are involved this these sex rings. These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses!

All Silicon Valley tech cartel media companies work together to censor all news and information in order to hide coverage of their dirty deeds and to only put politicians in office that will give the Cartel political payola, kick-backs and insider stock pumps. The Smedley Butler "Business Plot" from the past is not unlike the coup that Google and clan tried. Congress, local authorities investigate Abound Solar

Posted By Michael Bastasch On 11:43 AM 10/08/2012 @ 11:43 AM In Daily Caller News Foundation,DC Exclusives,Politics | No Comments

On Friday, Republican Congressman Cory Gardner of Colorado announced he was signing on to a letter requesting that Energy Secretary Steven Chu provide documents and information regarding what the Energy Department knew about Abound Solar's actions while giving it taxpayer dollars.

"We will be sending this letter to the Department of Energy, to Secretary Chu, demanding information on technical reports, engineering reports, marketing analysis, schematics, information they had on the failure rate, the technology flaws. This is an investigation that will be launching today," Gardner said in an interview with 1310 KFKA's Amy Oliver, "but we need to have answers, the American people deserve nothing less."

Last week, The Daily Caller News Foundation published the results of an investigation of federal loan guarantee recipient Abound Solar and found that the company was knowingly selling a faulty, underperforming product, and may have mislead lenders at one point in order to keep itself afloat in order to get government funding.

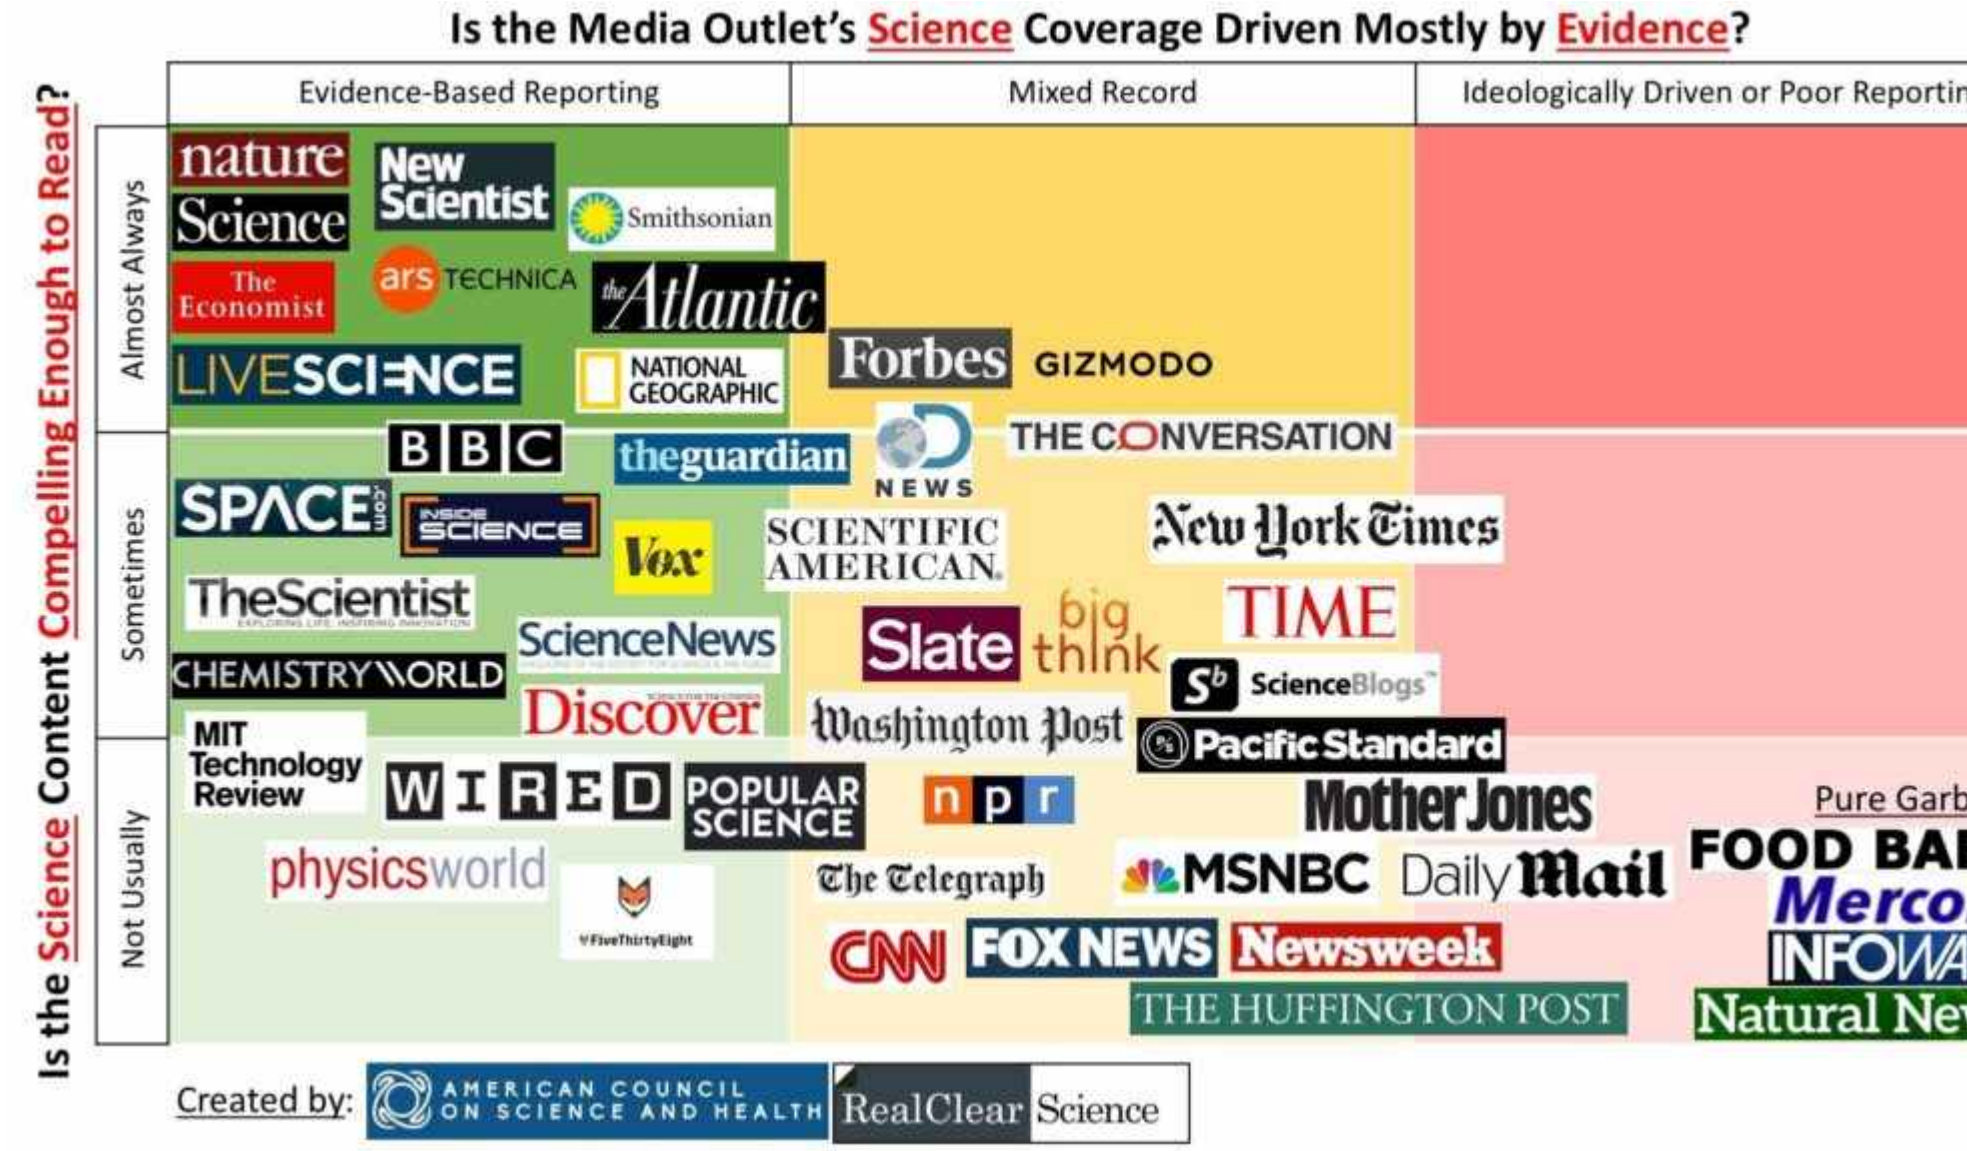

"We need to know, did the Department of Energy — did they close on the loan when they knew there were technical problems with the product?" Gardner said. "The fact that we have taxpayers on the hook for $70 million means that we, in Congress, have a responsibility to make sure nothing was done improperly."

Rep. Gardner is on the House Energy and Commerce Committee which oversees the Energy Department's loan program, from which Abound — like Solyndra — received taxpayer dollars.

Gardner said that an investigation of potential criminal activity would be left to state and local authorities.

"DIRTY" CRIMES FOR "CLEAN" ENERGY: THE AFGHANISTAN LITHIUM SCAM

Latest case assessment summary:
At this point, enough evidence has accumulated to clearly prove that a mining scam was underway involving trillions of dollars of lithium, which Tesla, John Doerr and the Silicon Valley Cartel, 1.) clearly acquired the monopoly ownership of, 2.) at exactly the right moment to time it to the Afghan War, 3.) and place their associate: Steven Chu in office, 4.) and arrange the Dept. of Energy exclusive cash give-aways and 5.) tie in with Goldman Sachs commodity rigging which every suspect has now been shown to have had an operational hand in, and financial & political benefit from.

The cost of an attack on a person ranges from $150,000.00 to over $50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the “FISA Memo”, Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as “hit-jobs” against domestic natural born U.S. citizen domestic taxpayers.

Their stories came out slowly, even hesitantly, at first. Then in a rush.

One female entrepreneur recounted how she had been propositioned by a Silicon Valley venture capitalist while seeking a job with him, which she did not land after rebuffing him. Another showed the increasingly suggestive messages she had received from a start-up investor. And one chief executive described how she had faced numerous sexist comments from an investor while raising money for her online community website.

What happened afterward was often just as disturbing, the women told The New York Times. Many times, the investors' firms and colleagues ignored or played down what had happened when the situations were brought to their attention. Saying anything, the women were warned, might lead to ostracism.

Now some of these female entrepreneurs have decided to take that risk. More than two dozen women in the technology start-up industry spoke to The Times in recent days about being sexually harassed. Ten of them named the investors involved, often providing corroborating

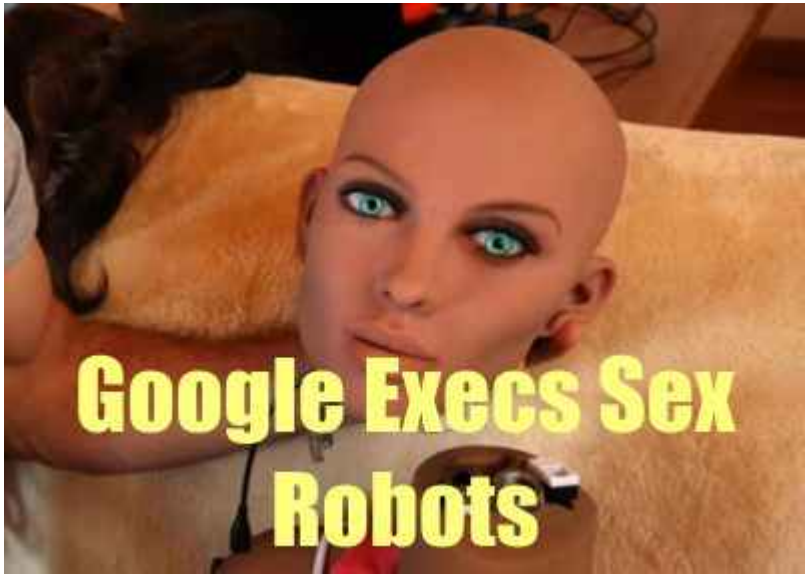

messages and emails, and pointed to high-profile venture capitalists such as Chris Sacca of Lowercase Capital and Dave McClure of 500 Startups.

The disclosures came after the tech news site The Information reported that female entrepreneurs had been preyed upon by a venture capitalist, Justin Caldbeck of Binary Capital. The new accounts underscore how sexual harassment in the tech start-up ecosystem goes beyond one firm and is pervasive and ingrained. Now their speaking out suggests a cultural shift in Silicon Valley, where such predatory behavior had often been murmured about but rarely exposed.

The tech industry has long suffered a gender imbalance, with companies such as Google and Facebook acknowledging how few women were in their ranks. Some female engineers have started to speak out on the issue, including a former Uber engineer who detailed a pattern of sexual harassment at the company, setting off internal investigations that spurred the resignation in June of Uber's chief executive, Travis Kalanick.

Most recently, the revelations about Mr. Caldbeck of Binary Capital have triggered an outcry. The investor has been accused of sexually harassing entrepreneurs while he worked at three different venture firms in the past seven years, often in meetings in which the women were presenting their companies to him.

Several of Silicon Valley's top venture capitalists and technologists, including Reid Hoffman, a founder of LinkedIn, condemned Mr. Caldbeck's behavior last week and called for investors to sign a "decency pledge." Binary has since collapsed, with Mr. Caldbeck leaving the firm and investors pulling money out of its funds.

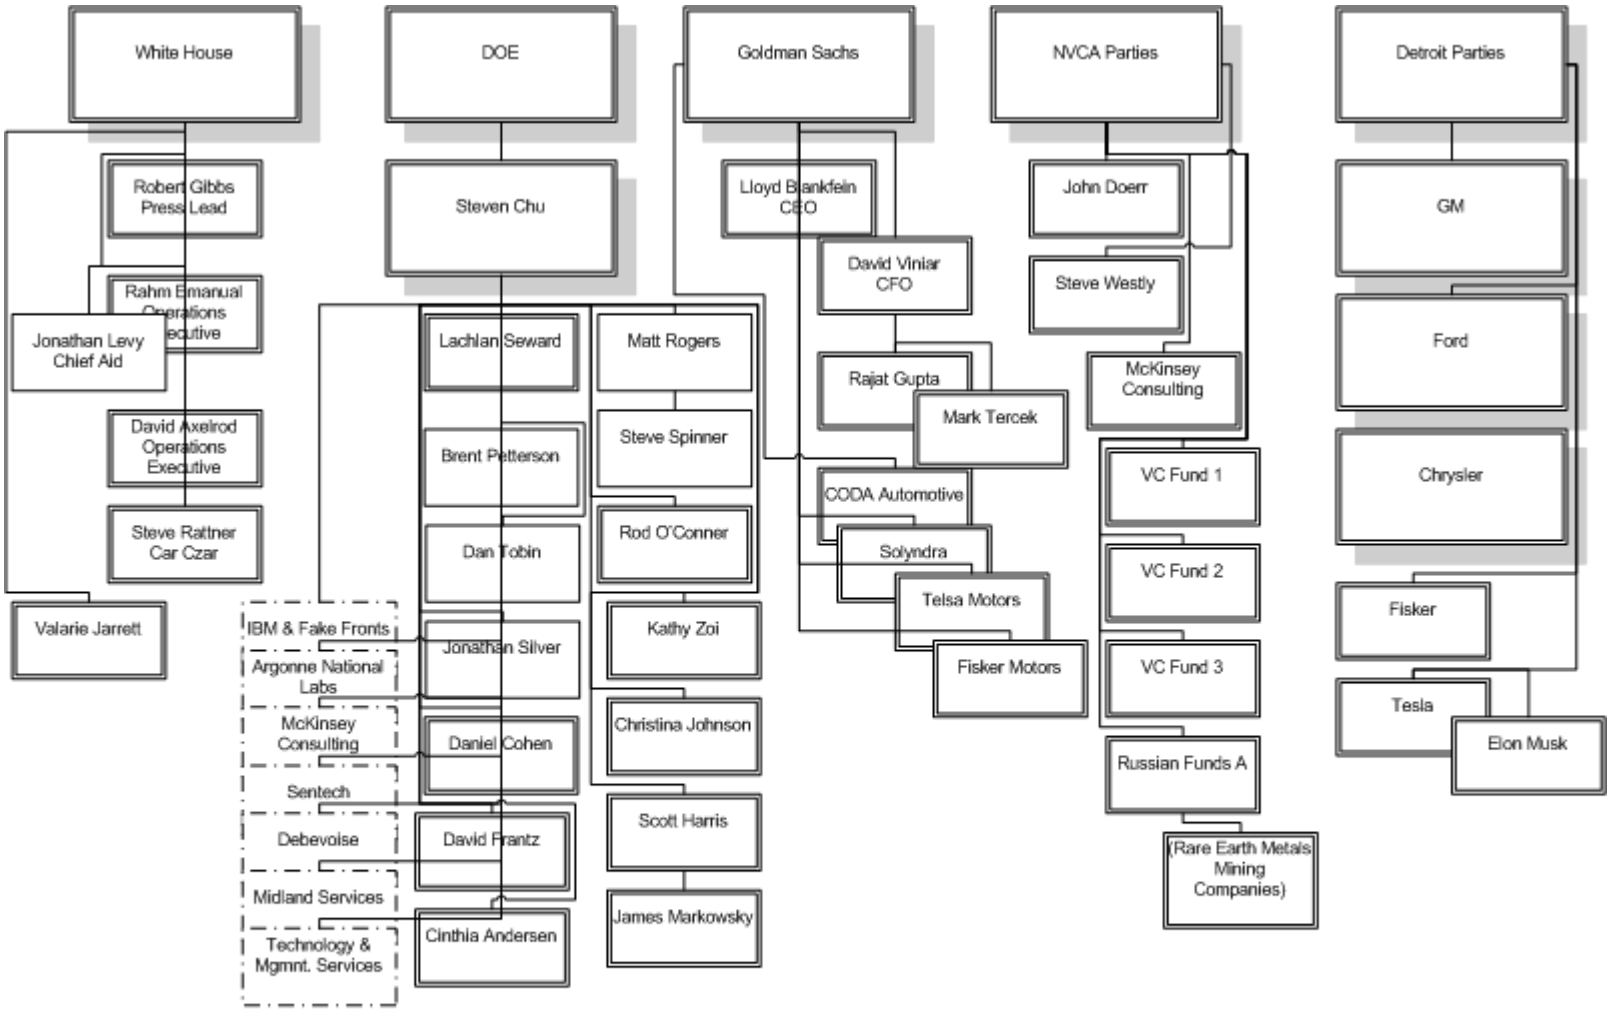

The chain of events has emboldened more women to talk publicly about the treatment they said they had endured from tech investors.

“Female entrepreneurs are a critical part of the fabric of Silicon Valley,” said Katrina Lake, founder and chief executive of the online clothing start-up Stitch Fix, who was one of the women targeted by Mr. Caldbeck. “It’s important to expose the type of behavior that’s been reported in the last few weeks, so the community can recognize and address these problems.”

The women’s experiences help explain why the venture capital and start-up ecosystem — which underpins the tech industry and has spawned companies such as Google, Facebook and Amazon — has been so lopsided in terms of gender.

Most venture capitalists and entrepreneurs are men, with female entrepreneurs receiving $1.5 billion in funding last year versus $58.2 billion for men, according to the data firm PitchBook. Many of the investors hold outsize power, since entrepreneurs need their money to turn ideas and innovations into a business. And because the venture industry operates with few disclosure requirements, people have kept silent about investors who cross the lines with entrepreneurs.

Associated Parties
Draft 1.4 Confidential

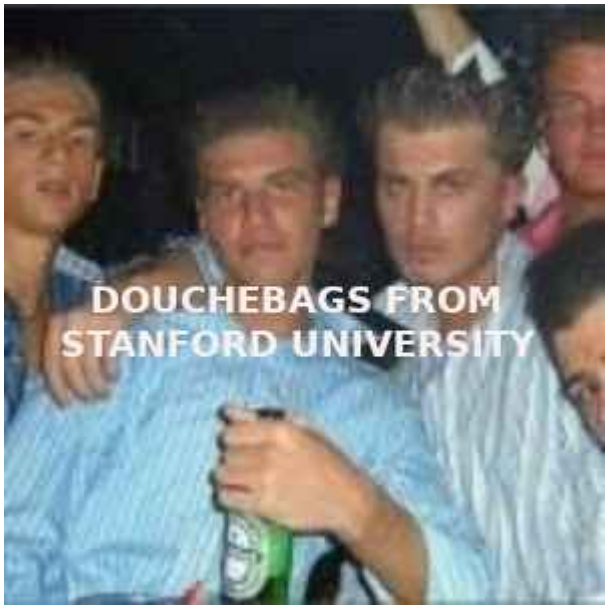

Some venture capitalists' abuse of power has come to light in recent years. In 2015, Ellen Pao took her former employer, the prestigious venture firm Kleiner Perkins Caufield & Byers, to trial for allegations of gender discrimination, leveling accusations of professional

retaliation after spurned sexual advances. Ms. Pao lost the case, but it sparked a debate about whether women in tech should publicly call out unequal treatment.

“Having had several women come out earlier, including Ellen Pao and me, most likely paved the way and primed the industry that these things indeed happen,” said Gesche Haas, an entrepreneur who said she was propositioned for sex by an investor, Pavel Curda, in 2014. Mr. Curda has since apologized.

Some of the entrepreneurs who spoke with The Times said they were often touched without permission by investors or advisers.

At a mostly male tech gathering in Las Vegas in 2009, Susan Wu, an entrepreneur and investor, said that Mr. Sacca, an investor and former Google executive, touched her face without her consent in a way that made her uncomfortable. Ms. Wu said she was also propositioned by Mr. Caldbeck while fund-raising in 2010 and worked hard to avoid him later when they crossed paths.

“There is such a massive imbalance of power that women in the industry often end up in distressing situations,” Ms. Wu said.

After being contacted by The Times, Mr. Sacca wrote in a blog post on Thursday: “I now understand I personally contributed to the problem. I am sorry.” In a statement to The Times, he added that he was “grateful to Susan and the other brave women sharing their stories. I’m confident the result of their courage will be long-overdue, lasting change.”

After the publication of this article, Mr. Sacca contacted The Times again to amend his original statement, adding: “I dispute Susan’s account from 2009.”

Many of the women also said they believed they had limited ability to push back against inappropriate behavior, often because they needed funding, a job or other help.

In 2014, Sarah Kunst, 31, an entrepreneur, said she discussed a potential job at 500 Startups, a start-up incubator in San Francisco. During the recruiting process, Mr. McClure, a founder of 500 Startups and an investor, sent her a Facebook message that read in part, “I was getting confused figuring out whether to hire you or hit on you.”

Ms. Kunst, who now runs a fitness start-up, said she declined Mr. McClure’s advance. When she later discussed the message with one of Mr. McClure’s colleagues, she said 500 Startups ended its conversations with her.

500 Startups said Mr. McClure, who did not respond to a request for comment, was no longer in charge of day-to-day operations after an internal investigation.

“After being made aware of instances of Dave having inappropriate behavior with women in the tech community, we have been making changes internally,” 500 Startups said. “He recognizes he has made mistakes and has been going through counseling to work on addressing changes in his previous unacceptable behavior.”

Rachel Renock, the chief executive of Wethos, described a similar situation in which she faced sexist comments while seeking financing for her online community site. While she and her female partners were fund-raising in March, one investor told them that they should marry for money, that he liked it when women fought back because he would always win, and that they needed more attractive photos of themselves in their presentation.

They put up with the comments, Ms. Renock said, because they “couldn’t imagine a world in which that $500,000 wasn’t on the table anymore.” Ms. Renock declined to name the investor. Wethos raised the $500,000 from someone else and is still fund-raising.

Wendy Dent, 43, whose company Cinemmerse makes an app for smart watches, said she was sent increasingly flirtatious messages by a start-up adviser, Marc Canter, as she was trying to start her company in 2014. Mr. Canter, who had founded a software company in the 1980s that became known as Macromedia, initially agreed to help her find a co-founder. But over time, his messages became sexual in nature.

In one message, reviewed by The Times, he wrote that she was a “sorceress casting a spell.” In another, he commented on how she looked in a blue dress and added, “Know what I’m thinking? Why am I sending you this — in private?”

ELON MUSK'S

"BUSINESS MEN"

Mr. Canter, in an interview, said that Ms. Dent “came on strong to me, asking for help” and that she had used her sexuality publicly. He said he disliked her ideas so he behaved the way he did to make her go away.

Some entrepreneurs were asked to not speak about the behavior they experienced.

At a start-up competition in 2014 in San Francisco, Lisa Curtis, an entrepreneur, pitched her food start-up, Kuli Kuli, and was told her idea had won the most plaudits from the audience, opening the door to possible investment. As she stepped off the stage, an investor named Jose De Dios, said, “Of course you won. You’re a total babe.”

Ms. Curtis later posted on Facebook about the exchange and got a call from a different investor. He said “that if I didn’t take down the post, no one in Silicon Valley would give me money again,” she said. Ms. Curtis deleted the post.

In a statement, Mr. De Dios said he “unequivocally did not make a defamatory remark.”

Often, change happens only when there is a public revelation, some of the women said. In the case of Mr. Caldbeck and Binary, the investor and the firm have apologized, as has Mr. Caldbeck’s previous employer, the venture capital firm Lightspeed Venture Partners, which had received complaints about him.

“We regret we did not take stronger action,” Lightspeed said on Twitter on Tuesday. “It is clear now that we should have done more.”

Lindsay Meyer, an entrepreneur in San Francisco, said Mr. Caldbeck put $25,000 of his own money into her fitness start-up in 2015. That gave Mr. Caldbeck reason to constantly text her; in those messages, reviewed by The Times, he asked if she was attracted to him and why she would rather be with her boyfriend than him. At times, he groped and kissed her, she said.

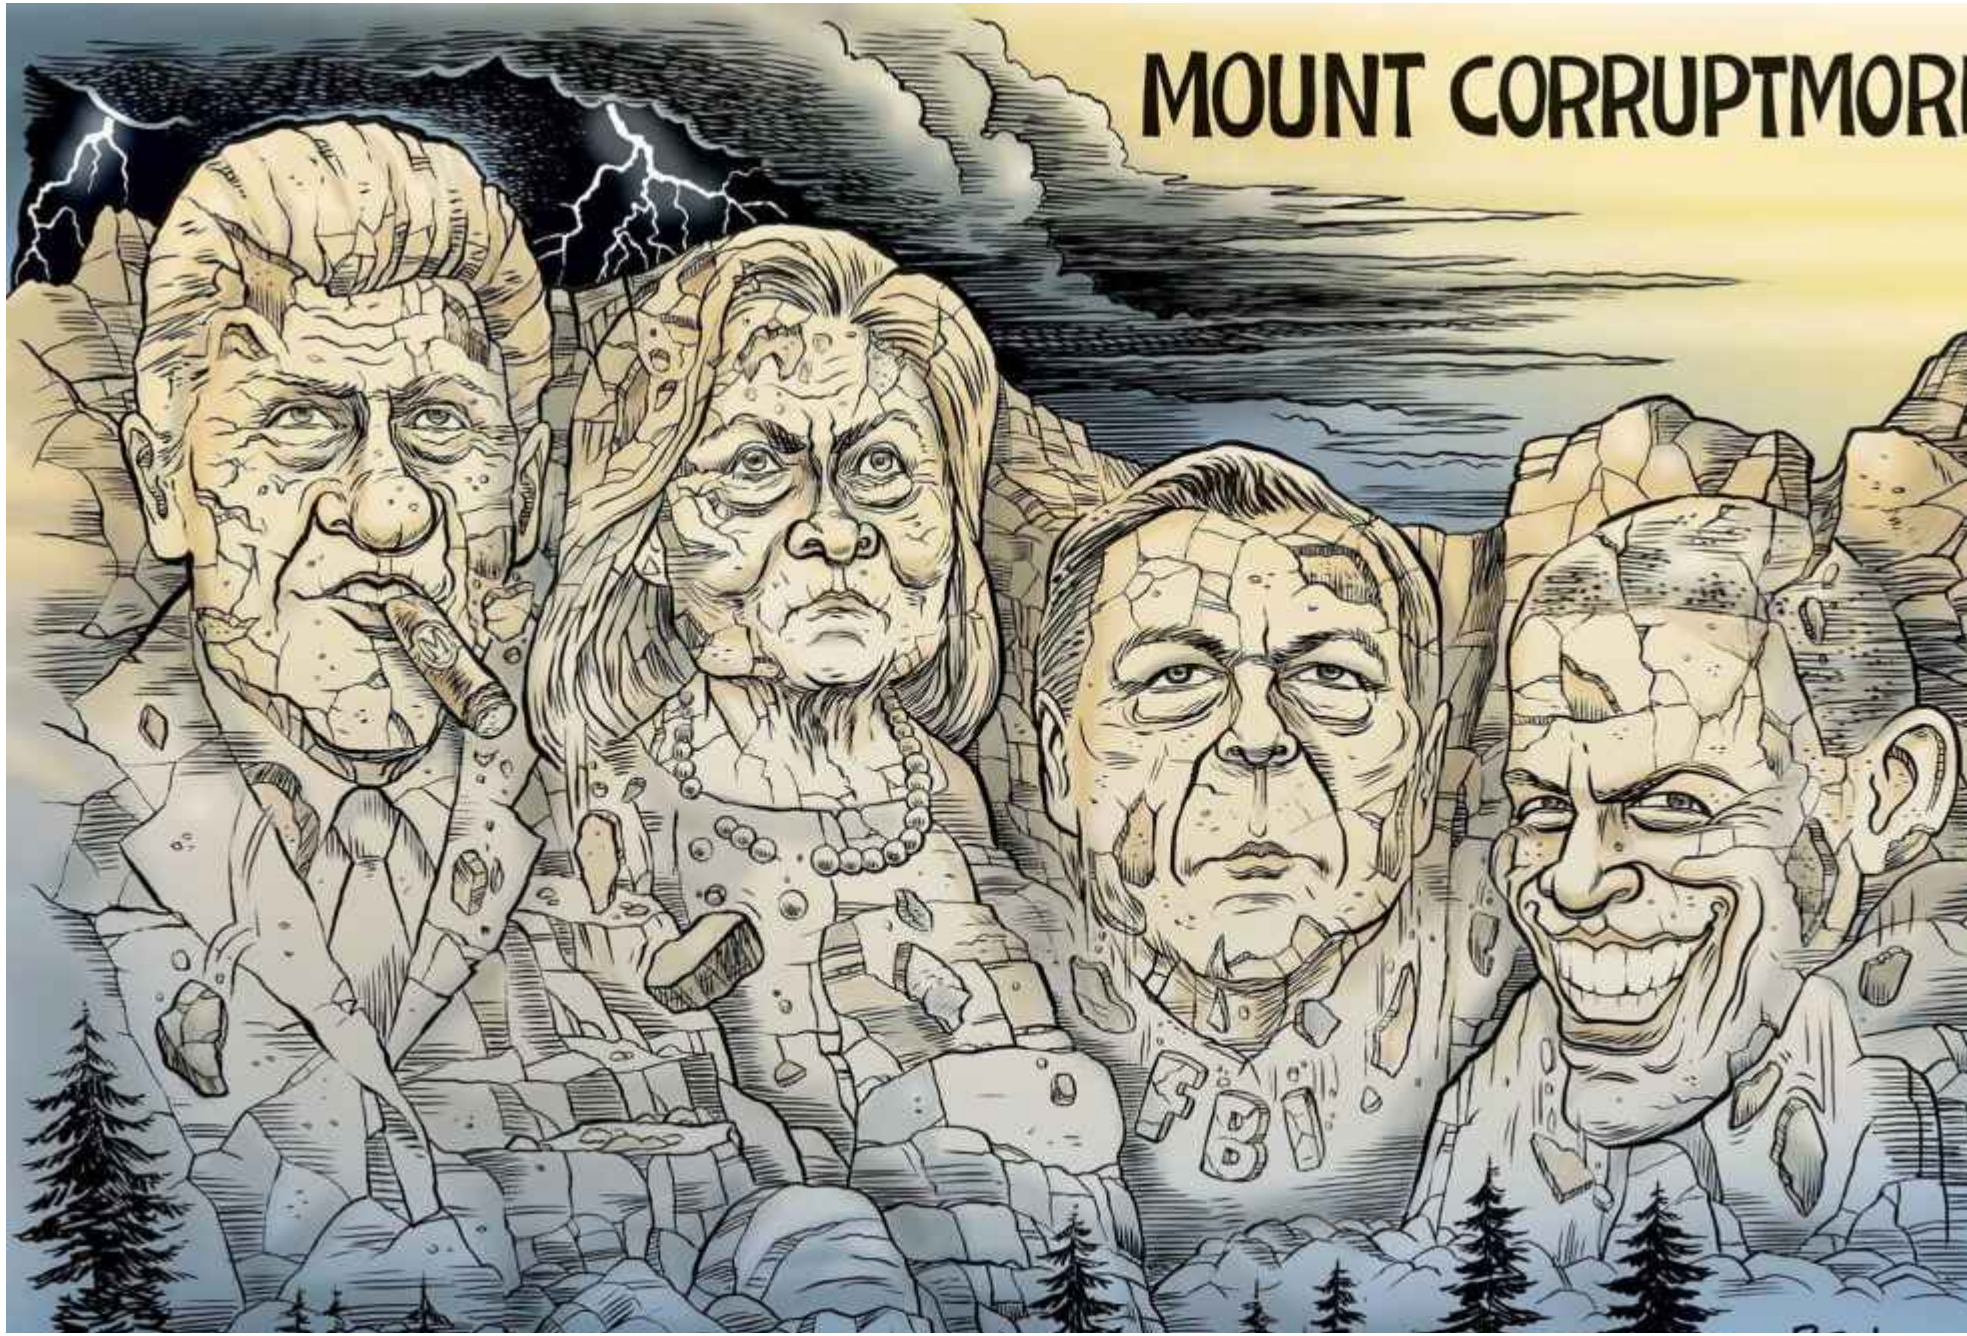

“I felt like I had to tolerate it because this is the cost of being a nonwhite female founder,” said Ms. Meyer, who is Asian-American.

But even after she reached out to a mentor, who alerted one of Binary's investors, Legacy Venture, to Mr. Caldbeck's actions, little changed. Legacy went on to invest in Binary's new fund. Binary and Mr. Caldbeck declined to comment.

"We failed to follow up on information about Mr. Caldbeck's personal behavior," Legacy said in a statement. "We regret this oversight and are determined to do better."

A Silicon Valley venture capitalist has been sued for $40 million by a woman who claims he used her as a virtual sex slave for 13 years.

Michael Goguen, who had worked for a firm that funded Google and Paypal, "sexually and physically" abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges.

MOUNT CORRUPTMORE
FBI

Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured “countless hours of forced sodomy” from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for “six hours at a time,” and forced her to call him “king” and “emperor.”

Filed in San Mateo County, Calif., on March 8, her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire’s plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

Goguen, who was forced to step down from his position at Sequoia Capital, did not deny that the two had a sexual relationship but insisted the sex was consensual. He filed a countersuit against Baptiste claiming she is an “exotic dancer . . . looking for a payday.”

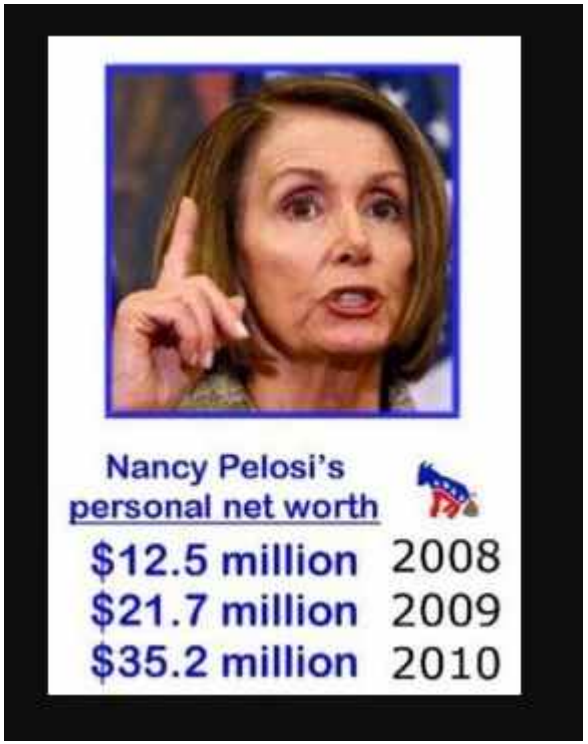

The venture capitalist said Baptiste was obsessed with him and sought to extort him because she was jealous of his wife. In his countersuit, Goguen provides pages of texts and emails in which she apparently refers to him as “Prince Charming,” “My Beautiful Love” and “the sweetest man in the world.”

The suit includes Bapiste’s descriptions of the “amazing sex” the two had together and photos that she allegedly sent him in which she is seen playfully posing in her underwear.

Baptiste is demanding $40 million, saying the two agreed on the amount to compensate her for the horrors she had suffered. Goguen, who has already paid her $10 million, said she is “a woman scorned” and a victim “of her own delusions.”

He claims that when he tried to end their relationship, Baptiste became bent on vengeance, threatening to ruin his life and reputation. He said that he had no choice but to pay her the $10 million, but that she refused to relent and demanded more money.

Sequoia Capital released a statement that called Goguen’s departure from the firm the “appropriate course of action.”A philanthropist, Goguen was lauded for donating $2 million to fight online child pornography and sex trafficking where he lives in Montana.

Goguen is not the only business leader who’s faced backlash over sexually inappropriate behavior.

FACEBOOK BOSS IN UNDER-AGE SEX SCANDAL

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-

year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle.

The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. Katz is to be arraigned on January 5th, and bail was set at $125,000. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly **responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl.**

Horrific Google Anal Sex Slave Case Uncovers Twisted Perversions Of Google Executives

By Samantha Conners - APT

Michael Goguen, Google's married senior investor, “sexually and physically” abused Amber Laurel Baptiste with constant anal sex over more than 13 years after picking her up at a Texas strip club. His company: Sequoia Capital, has had other run-ins with cheating married executives, escorts and tax evasion schemes, per legal filings.

Eric Schmidt, the head of Google, proclaimed that he would have a “open marriage” where he could have sex any time, with anybody, and is documented in a ream of news articles and video regarding his fifteen million dollar “sex penthouse” in New York.

Sergey Brin, another head of Google, is featured in numerous news articles for his “three way sex romp” with multiple Google employees forcing one employee to move to China to escape him. A married Google senior executive named Hayes, who helped rig Google's searches for political clients, was murdered on his “sex yacht” by his prostitute, which other Google executives had used.

Ravi Kumar, another VC associated with Google Executives, was also murdered by a pack of hookers and pimps that frequented his Silicon Valley home.

Valley Girls was a private escort service that used Stanford Co-eds to service the sexual kinks of Google executives.

Ellen Pao famously sued Google founding investor John Doerr, and his company Kleiner Perkins, for sexual abuse.

Google employee divorce filings hold the Silicon Valley record for use of the word “abuse” as one of the reasons given in the legal papers filed to initiate the divorce.

The list of kinky, twisted, bizarre sexual antics of Google executives, and their investors, goes on for pages and pages...

Google seems to attract the most twisted, perverted, morally decrepit men in the world. One has to wonder why, of all the large companies on Earth, only Google got to place the majority of it's people in the White House? That's right, Nike doesn't have it's people in the White House. Macy's doesn't either. Neither does Chevron, or John Deere tractor or any other company on Earth.

Only Google, exclusively and uniquely, had all of their people placed in the White House and top federal agency lead positions. What's up with that? Were they selected because of their technical skills or their ability to make people bend over?

An addiction to dirty sexual perversions are not the only illicit trends that Google folks display. The Google investors are members of a financing cartel called the National Venture Capital Association

(NVCA). This group of frat boy elitists got busted for running the “Angelgate” scandal in which they were documented rigging, colluding, black-listing and contriving the whole Silicon Valley start-up industry.

Then they were caught again when Eric Schmidt, Mr. “Sex Penthouse” and the head of Google, wrote emails ordering a conspiracy against Silicon Valley engineers. This “No Poaching” conspiracy got the Silicon Valley VC's sued in a class-action lawsuit, which the VC's lost. The Google founder's best friend: Jacques Littlefield, kept the world's largest private fully functional military tank squadron, in fully operational status, hidden in vast warehouses in his Silicon Valley estate in Woodside, California.

He said he had this arsenal: “just in case”. Does Google make white frat house men insane or does it draw the crazy ones to it?

The FBI is finally crunching down on these people. After so many years of the White House ordering the FBI to leave the Google VC's and Silicon Valley perverts alone, it was just getting plain embarrassing for the FBI. The audacious impunity with which Google, and it's friends, engaged in tax evasion, importing hookers, bribery, stock market rigging, anti-trust schemes and other crimes has become so overt, in the media, that it was created a spotlight on federal law enforcements avoidance of prosecution of the shenanigans of the Google crowd.

Brotopia is the eite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies.

---- When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal ‘old boys club’ manner.

---- They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors.

---- Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption.

---- They then sexually extort some Standford interns in Rosewood Hotel rooms, get the most ‘trophy wife’ ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and ‘Bro-Crime”.

---- The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking.

---- The Silicon Valley Tech Cartel is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them.

---- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

----So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- Why don't you see much about this corruption in the "news? A handful of companies in Silicon Valley, all controlled by the same investors, control almost all of the news and information in the world. They only hire and publish writers that agree with their fake news ideology. That ideology is whatever lie they can sell to the emotions of those shill writers to get them to "believe". In reality the only ideology the owners of those companies actually have is to pump their personal stock market holdings. They control elections in order to manipulate people into office that will do things that benefit the stocks of those media owners.

They will lie to beat the band because their hookers, rent boys, private jets, drugs, private islands and other sins are expensive as hell and they are addicted to those deviancy's. They are all invested with Elon Musk's, Larry Page's and Mark Zuckerberg's companies so they never allow any negative news about those tech mobsters in the world news that they control. This is the worst kind of illegal media monopoly but these owners control the agency heads who are supposed to indict them. So everybody in America is screwed until some non-fake law enforcement comes along.

--- A horrific phenomenon of cultural depravity and white-collar crime is going unchecked in Silicon Valley because Silicon Valley controls the media and the politicians that are usually supposed to check these kinds of things. Millions of pages of news reports, documentaries, interviews and legal transcripts prove the following to be true:

---- Elitist Cult. Silicon Valley elitists believe they are better than everyone else. Silicon Valley's Kleiner Perkins founder: VC Tom Perkins, said that poor people must be "Nazi's" for not accepting the "superior intellect" of VC's. Silicon Valley's Kleiner Perkins VC Vinod Khosla, took over California's favorite public beach, bribed the White House for "green cash" and got sued for arrogance by a horde of public interest lawsuits. Silicon Valley's Kleiner Perkins founder Ray Lane was indicted for tax evasion. Silicon Valley's Kleiner Perkins boss John Doerr was sued for sexual office abuse and running a "frat house". Most of the VC's and tech CEO's in Silicon Valley are charged with ethics breaches.

---- Prostitutes. Silicon Valley males hire more hookers and "rent-boys" and fly more sex workers into the Bay Area than any other city in America. Google's and Tesla Investments executives were killed in sex and drug romps with hookers. Google's Eric Schmidt ran a huge "sex penthouse" and promotes infidelity and "anti-marriage". Google's search engine rigging boss died at the hands of one of his hookers. The Silicon Valley VC's had the Rosewood Hotel built at the end of Sandhill Road as a place to take interns and hookers to for sex. Underage sex efforts operated by these VC's and Tech CEO's have created the "Pizzagate" phenomenon.

---- Rapists and Sexual Coercion of Employees. Young interns are "sent up the hill" by Stanford to the VC's Sandhill Road offices to become sexual playthings for the VC's at the Rosewood Hotel. Ellen Pao sued Kleiner Perkins over the sexual "rape culture" that they promoted. Thousands of women have written books and articles about the sexual intimidation they are subjected to by Silicon Valley VC's and their tech CEO's. VC's Joe Lonsdale, Micheal Goguen and hundreds of others have been charged with rape and sex trafficking. Stanford University gets "endowments" and "gifts" for hushing rape culture and intern-fluffing up.

---- Assholes. Fraternity House Take-What-You-Want culture is re-percussively promoted in the bars, clubs, meetings, conferences and emails of the VC's and CEO's. The TV Show: Silicon Valley, underscores the point of the dangers of infectious asshole-ism in Silicon Valley.

---- Clones. They assemble those around them that have the same stereotypical facial structure. In a room full of ordinary people and Tech VC's, the VC's faces stand out as Hollywood-type character-cartoon duplicates of each other.

---- Sexual deviance and extremism. Google's founders have all had extreme sex scandals involving cheating, 3-way sex, divorces over abuse, forced anal sex and other outrages. Their teachers at Stanford have had to quite over their sex scandals. Their willingness and infatuation with sexual extremes defines them as moral degenerates who care little about laws and ethics.

---- Insider Dysfunctional Parents. The majority of the VC's and Tech CEO's come from rich dynastic families who are cultism-like devoted to "the family bloodline" and run by male oligarchs who believe in a rape culture/oligarch ethos. This belief system is passed on to their children. The oligarch parents threaten to cut endowments to Stanford University if Stanford punishes their son's Frat Houses for date rapes.

---- Tone Deaf. Silicon Valley Tech people exist in a conceptual ideology reinforcement bubble by never interacting with, or reading information or news from, anyone outside of their group. VC Tim Draper spent vast amounts of money trying to make Silicon Valley it's own country in order to systemize the Silicon Valley tunnel-vision bubble. They want to secede from America because they are offended by normal people who they consider to be low-class and unworthy.

---- Murders. Rajeev Motwani taught the Google founders how to build Google and was found, mysteriously, floating, dead, in his Silicon Valley swimming pool. Silicon Valley's Gary D. Conley reported John Doerr and Elon Musk for corruption and was found with a bullet in his head behind Beale Air Force base. Three top Tesla engineers reported corruption at Tesla Motors and then suddenly died in a plane crash next to Tesla's factory in San Carlos. There are over 100 mysterious deaths associated with people who had conflicts with Google, Kleiner Perkins and other Silicon Valley oligarchs.

---- Arrogant. Self-Centered Narcissists. Elon Musk has spent over a billion dollars buying exclusive Google, Twitter, MSM and Facebook hype about himself. Every Tech CEO has a multi-million dollar PR agent assigned to make them look like "Gods of Industry". They regularly hold "Babes and Ball's" parties and sex parties in Woodside that require women to beg for their money. They were trained to be "assholes" and "abusive dominants" via the Stanford Rape/Frat Culture.

---- Misogynists. All White-Male-Controlled with frat house pasts. Women are used As Sex Objects and Window Dressing. The largest number of anti-women news stories, jock/bro blog reports and charges for abuse come from Silicon Valley. VC Steve Westly's CEO friend is notorious for kicking his girlfriend hundreds of times because she "sassed" him. Almost of of their Divorce filings include abuse charges against the man.

---- Manipulation of Employees. Silicon Valley cartel companies practice Scientology-like indoctrination and "cultural programming" of employees. These highly impressionable naive young employees are kept in "controlled environments", sent to "mindfulness programming workshops" and told what kind of political opinions they should have. Tight-knit groups of females experience synchronized menstrual periods (http://www.nature.com/nature/journal/v229/n5282/abs/229244a0.html) over time, cohesive Google and Facebook employee groups engaged in decision-making discount dissenting viewpoints in the interests of consensus, and that couples who stay together long enough begin to look alike. A new study has captured another group phenomenon in Silicon Valley and chronicled in humans' natural habitat: "group brain synchrony". This is a CIA-like brainwashing technique exploited to get all Google/Facebook/Twitter employees to rapidly adopt the same political views.

---- Racists. Silicon Valley companies have the lowest rates of hiring, or promoting blacks, in America even though they have a high population of blacks at the edge of their community.

---- Male insecurity issues. They use TED-Talks, SXSW and Syncronicity Events as self-promoting hype in which to act like an apostle of a tech religion. They buy Tesla cars as a badge of arrogance and mock any male who does not own what they own or who who did not go to Stanford or Yale. These pretentious and ostentatious boys are more inclined to brag about penis-size than family.

---- Blacklisting. In the AngelGate Investigation and Silicon Valley No Poaching Class Action Lawsuit, Silicon Valley was exposed as an insider club that black-lists those who look different or are not part of the boys club.

---- Politically corrupt. Silicon Valley has bribed more politicians than any other domestic region in history. They promote more immigration in order to get cheap labor for their tech companies. They steal their technology and bribe politicians to eliminate patent protections for small inventors that they steal from. Political Corruption and Bribery Is The Norm for these boys. Silicon Valley created a CIA knock-off called "In-Q-Tel" in order to use CIA technology to manipulate elections at Google, Facebook and Twitter. The 60 Minutes Episode called: "The Cleantech Crash" is about their multi-billion dollar scam using the Dept. of Energy as a slush-fund. They refuse to allow their MSM to report on their corruption and crony kickbacks, ie: Tesla Motors Funding, Off-shore tax evasion, Hooker networks, etc.

---- Collusion. In the AngelGate Investigation, the Silicon Valley No Poaching Class Action Lawsuit, and hundreds of other cases, Silicon Valley was exposed as an insider club that colludes to rig valuations, stock markets and employee poaching. They operate in herds within their peer group. They are not inclined to independent thinking. Kleiner Perkins has been caught placing moles and saboteurs inside competitors start-ups. They operate in herds within their peer group. They are not inclined to independent thinking.

---- Stock Market Criminals. Stock Market Pump-and-Dump, Flash Boy Algorithm Manipulation, Insider Trading, Market Rigging. The Securities and Exchange law violations and FTC monopoly law violations are vast in number.

---- Burning Man Sex-and-Drugs Devotees. Silicon Valley frat boys have a huge participation in the date-rape goings-on at Burning Man and buy extensive pheromone and skin contact delivery animal-tranquilizer drugs to use on young Burning Man girls.

---- Minimal Regard For Consequences. Although their PR agents promote them as "green" and "socially positive", it is all hype to get tax waivers and government hand-outs. Mark Zuckerberg's take-over of San Francisco General Hospital's brand was entirely a scam to get him a $1 billion dollar tax evasion deployment. The Silicon Frat Boys act on impulse and try to buy off the collateral damage later.

---- Closeted homosexuals. Using the tremendous funds they have at hand from their exclusive monopolies in public media, they push their trans-gender agendas through their bought-and-paid for politicians. This has resulted in a generation of sexually confused children who believe that they should cut their penises off. The top bosses at Facebook, Google, Twitter, Tesla and other companies are lying to the public

about their sexuality and using hired wives, known as “beards”. If they lie about something so basic, one has to wonder what else they lie about.

---- Thieves. They steal most of their technology from small inventors who can’t defend themselves. They get inventions from Indian engineers and then ship them back to India before the employees can get any stock or IP rights. The tech CEO’s send their VC friends to competing start-ups to spy on competing technologies and steal it. The VC’s say they are just doing “due diligence” but they are actually sucking the competing start-up dry of IP and staff and making a clone of it under another name.

---- There are so many other awful things about the people of Silicon Valley. You get the picture. Silicon Valley is a swamp and a cesspool.

WHO IS THE SILICON VALLEY MAFIA?

By Terry Reed and Mark Lawson

They are sex abusers like John Doerr and his entire Kleiner Perkins frat boy staff who were sued by Ellen Pao for the misogyny culture of sexual deviancy and abuse that they promote as their corporate culture. They are tax evaders like Ray Lane. They are hooker-hiring sex traffickers like Google's Forrest Hayes who died from an excess of drugs and sex. They are cheaters like Google's David Drummond who destroyed his family by his addiction to infidelity. They are sex addicts who own sex penthouses and cavort with the notorious Wendy Deng like Eric Schmidt. Amid the World's Largest Corporate Sex Scandals Google CEO Eric Schmidt will now leave Alphabet’s board. Schmidt is a known womanizer despite being married for 37 years to Wendy Schmidt, who said in 2012 they started living separate lives because she

felt like “a piece of luggage” following him around the world. News outlets have been sniffing around Schmidt’s former flames looking for a Harvey Weinstein-like bombshell, a source close to Schmidt told The PostThey are mobster-class justice evasion lawyers like Wilson Sonsini and political bribe conduit lawyers like Perkins Coie. They are charged rapists and psychological sex manipulators like Joe Lonsdale.

When Kleiner Perkins offices were broken into by covert law enforcement operatives much was revealed. This was followed by the hack of all of John Doerr's emails' and the email of his top staff. This was followed by the revelation that Doerr bribes Stanford University for special favors for his kids and for certain 'relationships'. Now Doerr must walk on pins and needles because he has been put on notice that even the slightest bribe, political manipulation or mobster-like tech black-listing will not go unnoticed.

A female employee called Tesla's factory a 'predator zone' at a meeting where workers described the constant sexual harassment at Tesla.

DNC chairman Eric Bauman, the head of the California Democratic Party, and the Los Angeles County Democratic Party., has is former assistant say he was first assaulted after falling asleep in a hotel and waking up to his boss performing oral sex on him, and that there were two more instances where he was forced to submit to Bauman.

Bay area party guests and Rothschild-linked Bronfman sisters donated millions to the sex cult whose leaders, Allison Mack and Keith Raniere, have been charged with child sex trafficking.

Goddard, a director, producer and theme park designer, has faced many sex abuse allegations. Eight former members of a Santa Barbara youth theater group in the 1970s alleged that Goddard molested or attempted to molest them. A ninth was said to have told others before he died that Goddard sexually assaulted him as a child. Goddard denied their allegations.

The Silicon Valley Mafia is The Sandhill Road Venture Capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) partners and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, Linkedin, etc.) they control. They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control.

They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders. They collude on black-lists, valuation controls, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, executive prostitute clubs, trophy wife assignments, the bribery of politicians and worse. They are felons who pay politicians to halt investigations and interdiction efforts.

They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis abusers, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative,

insecure, covertly gay, corrupt, thieves' and other anti-social revelations. They are not limited to California and also operate out of New York and Washington DC.

They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

The Department of Justice conducted a series of raids across California tech and media circles and arrested 238 people in connection with a Hollywood pedophilia network, but this story went totally ignored by almost all media outlets. According to police, the arrests included some entertainers, community leaders, white-collar professionals, a monk, and other high-ranking clergy members. The raids were conducted by the Regional Internet Crimes Against Children task force, working directly with the Justice Department. Codenamed "Operation Broken Heart III", the sweeping raids targeted offenders wanted for the sexual exploitation of children, child prostitution, sex tourism and possessing and distributing child pornography, said Deputy Chief Matt Blake. Silicon Valley oligarchs use these intermediate level people to source up sex victims to be delivered to their Woodside and Atherton mansions.

Michael Goguen, who had worked for a firm that funded Google and Paypal, "sexually and physically" abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges. Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured "countless hours of forced sodomy" from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for "six hours at a time," and forced her to call him "king" and "emperor." Filed in San Mateo County, Calif., her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire's plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

The Silicon Valley Mafia Cartel is the largest provider of dark money bribes to West Coast politicians including Feinstein, Pelosi, Harris, Brown, Reid, Boxer, Lee, et al,. Those politicians and their families also covertly own the stock of the California tech companies and social media companies like Tesla, Solyndra, Abound, Google, Facebook, Netflix, etc. Larry Wallace, a senior staffer for Sen. Kamala Harris (D-CA) resigned over the discovery he was involved in a sexual harassment lawsuit and $400,000 payout to the sexually abused victim while working for then California Attorney General Kamala Harris. In the latest case of Hollywood's and Silicon Valley's spiralling sexual abuse scandal, Variety reports that a veteran 58-year-old Disney executive has been charged with three felony counts of child sexual abuse. Jon Heely, the longtime director of music publishing at Disney, was arrested nearly a month ago and charged with three counts of lewd and lascivious acts on a child. One of the reported victims was 15. The other was abused for four years starting at the age of 11, according to the charges. Heely, who oversees the licensing of music from Disney films faces up to nine years and three months in prison according to The Daily News.

It is now time to sound the alarm bells on the economic prospects for the Millennial Generation in the Western world, but more importantly, at Stanford University. This generation of citizens aged 18 to 36, is the first in modern developed economies on course to have a lower standard of living than their parents. Housing affordability and a decaying job environment are some of the most pressing issues affecting Stanford Millennials. The future is bleak for this avocado and toast generation, as Western world economies have likely plateaued regarding economic growth. Surging debt and rising government bond yields are producing an environment that could lead to more hardships for this lost generation. Tech oligarchs have taken full advantage of broke Millennials by offering “adult arrangements” for a roof over their heads. Yes, you heard this correctly, Millennials are trading sex for a place to sleep and sex for tuition at Stanford University.

Sugar Babies now comprise a large portion of Stanford students. Kleiner Perkins and Greylock VC's hire them for sex. Google and Facebook executives use them like disposable sex toys. The student debt crisis in the US has gotten so bad, there's a growing group of young women — and some men — who are taking an unconventional approach to paying for college.Through dating websites like SeekingArrangement.com, and match.com, Sugar Babies, as they're called, partner up with wealthy, often older, men who want to spend money on them. Some 2.5 million Sugar Babies identified as students in 2016 on SeekingArrangement.com. Many of these Sugar Babies turned to the site to find someone who will pay for their education so they can graduate debt, and worry, free. In exchange, Sugar Babies go to dinners, attend events, or accompany their Sugar Daddy, or daddies, on trips. In some cases, they provide companionship or foster a mentor-mentee relationship. In other situations, the terms of the agreement include physical intimacy.

Jermaine Gagnon, 28, told DailyMailTV how he narrowly escaped death when DNC financier Edward Buck injected him with crystal meth at his sex-toy filled apartment. Gagnon said Buck, 63, paid to fly him from Minnesota to Los Angeles, drugged him with a substance dissolved in Gatorade then injected him with crystal meth. The 28-year-old shared photos of Buck, wearing white long johns, crouched over him on a mattress during one of their nights together last year. Gagnon shared images of sex toys Buck had for their encounter, saying: 'He had this red and black toolbox with all types of fetish toys, like c**k rings, sex toys'. He added: 'He gave me some Tommy Hilfiger tighty whities, a muscle t-shirt and some long johns. White knee-high socks'. Gagnon said during one encounter Buck offered him a drink he suspected had been spiked, feeling woozy and weak shortly after drinking it. He said: 'He took my phone. I was so scared. I felt death

walked into my soul. I called my mother. I said, 'I feel like he's going to kill me, I think I'm going to die'. Buck is now under investigation over the deaths of two black men, including one man who died of an apparent overdose at his apartment on Monday.

According to the testimony of a federal agent, Harold “H.L.” Moody, a former Democratic Party chairman, streamed live videos of children being raped, distributed child pornography to other pedophiles, and regularly smoked methamphetamine out of a glass pipe while seated at his desk during work hours. Our tax dollars at work, folks. Jason Bennett, a special agent for Homeland Security Investigations, said an undercover agent took “screen shots” of Moody sitting at his desk and chatting with pedophiles in a secret chatroom online on “more than one occasion” between Aug. 29 and Oct. 12. Bennett described Moody as a “high-volume user” who logged in and out of a chat room solely devoted to child pornography several times a day, including 26 times in a two-day span. He was also a host of the private chat room, which Bennett explains indicates that Moody did something to receive such recognition.

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle. The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl. Katz allegedly arranged a meeting at the Embassy Suites in Tukwila, offering to pay $350 to have sex without a condom. When Katz arrived at the hotel with $600 in cash, he was arrested by police.

Former Democrat CDC director Dr. Tom Frieden was arrested on sexual pervert allegations.Frieden was charged with forcible touching, sex abuse and harassment, according to police.

California gubernatorial candidate Gavin Newsom's past sexual misconduct disqualifies him from holding higher office, rival Democrat Amanda Renteria said Thursday, and he should resign from his position as lieutenant governor. "If he was in the Legislature right now, he'd be called out, and like what we've seen, being forced out," Renteria said in an interview with The Sacramento Bee. "We've got to be sending the message that the more power you have, the more responsibility you have to protect others." As mayor of San Francisco more than a decade ago, Newsom had an affair with one of his city hall aides, who was also married to his campaign manager at the time.

Google employees have accused Google boss Rubin of sexual misconduct. A woman, with whom Mr. Rubin had been having an extramarital relationship, said he coerced her into performing oral sex in a hotel room in 2013, according to two company executives with knowledge of the episode. Google investigated and concluded her claim was credible, said the people, who spoke on the condition that they not be named, citing confidentiality agreements. Mr. Rubin was notified, they said, and Mr. Page asked for his resignation. Google could have fired Mr. Rubin and paid him little to nothing on the way out. Instead, the company handed him a $90 million exit package, paid in installments of about $2 million a month for four years, said two people with knowledge of the terms. The last payment is scheduled for next month. Mr. Rubin was one of three executives that Google protected over the past decade after they were accused of sexual misconduct. In two instances, it ousted senior executives, but softened the blow by paying them millions of dollars as they departed, even though it had no legal obligation to do so. In a third, the executive remained in a highly compensated post at the company. Each time Google stayed silent about the accusations against the men. Google executives have been caught having sex slaves.

The Rosewood Hotel is brimming with tech guys, some loudly talking about money. The college student at our table recommends the ribs—she's been here before, on "dates" with her "daddies." "There are a lot of tech guys," she says. "They want the girlfriend experience, without having to deal with an actual girlfriend." "The girlfriend experience" is the term women in the sex trade use for a service involving more than just sex. "They want the perfect girlfriend—in their eyes," says Miranda, the young woman at our table.* "She's well groomed, cultured, classy, able to converse about anything—but not bringing into it any of her real-world problems or feelings. Her adventures in "sugaring" started three years ago when she got hit on by an older guy and rebuffed him, saying, "Look, I'm not interested, so unless you're offering to pay my student loans," and he said, "Well . . . ?" After that, "he paid for stuff. He gave me money to help out with my living expenses." This is how many of the skinny co-eds at Stanford University pay the bills and Stanford bosses look the other way.

In Silicon Valley, There Are Over 100 Services That Deliver Young Men And Girls To Rich Google And Facebook Executives For Dirty Sex. Most of the victims come from local colleges, universities, art schools and the Mission District, Haight Street and Noe Valley districts in San Francisco. They use Facade organizations like "Power Exchange", "Mission Exchange", "The Arena", "Orgasmic Meditation", "NXVIUM", "The Spinsters", "The Guardsmen", One Taste, etc. act as fronts for sexual transactions. The Rosewood Hotel has sex nights for the sale of women using sly hand signals. Almost every hotel on El Camino Real in Palo Alto has a prostitution activity going on around the clock. Russian and Italian prostitutes fly in and out of San Jose and San Francisco airports so often that they are known as the "pus*y ports". Young, impossibly attractive, girls with tight mini skirts and a roller bag in the airport alone are now under constant surveillance by police.

One report recalls: "...At the hotel, Hillary Clinton Mega donor and John Podesta partner Wyss assaulted Long physically and sexually, according to her police complaint. “Me screaming, ‘No stop it,'” she wrote in her own handwriting to police. “He grabbed my teeth with his left hand and ripped my mouth open. He inserted a vibrator into my vagina and almost suffocated me by putting his fist into my mouth. I struggled and pushed. I thought for sure he was going to kill me,” she wrote. “I left that hotel room sick and in pain,” she told police in the statement. She returned to Boulder and “stayed in bed for weeks. The physical sickness of this event was devastating,” she told police. Wyss also allegedly threatened to stop his financial support for her daughter if she broke up with him, according to Long.“She’s probably one of the first who took on powerful men over sexual misconduct,” recalled Police Chief Tom Koby in an interview with TheDCNF. He personally knew the Boulder resident and counseled her about her relationship with Wyss.“After the attack, I had breakfast with Jackie at the Hotel Boulderado. She broke down during breakfast. This thing had happened and it was terrible. She was quite shaken and Jackie doesn’t shake too easily,” Koby said.“Hans had her in a bind in terms of helping Jackie heal her daughter, who had some serious health addiction issues,” Kolby added. “That was what was keeping Jackie in the relationship and she didn’t have a lot of money. She was still clinging to the hope she could save her daughter. And that she had these things she wanted to do with these organizations working on detention homes and shelters in Boulder and in Denver,” Koby recalled..."

Amid allegations of sexual harassment, embattled freshman Democratic Rep. Ruben Kihuen vowed he will not resign from his post, despite calls from Democratic leaders that he step aside.Instead, Kihuen is digging in with a shocking allegation of his own, taking aim at the leaders of his own party. In an interview with ABC News, Kihuen, D-Nev., said party leaders knew last year about a former campaign staffer’s

allegations of misconduct but stood by his campaign nonetheless. Kihuen questioned why they are calling for his resignation now, more than a year later.“I do find it interesting that the DCCC, Leader [Nancy] Pelosi and Chairman Ben Ray Lujan -- they knew about these allegations last year,” Kihuen said. “They looked into them. They didn't find anything, and they continued investing millions of dollars in my campaign. ***They went out there and campaigned for me.”***

A married senior official in President Obama's Department of Education was convicted of sex crimes and resigned for following women on the DC Metro and taking pictures up their skirts, DailyMail.com can exclusively reveal. William Mendoza, 42, the former executive director of the White House Initiative on American Indian and Alaska Native Education, stepped down after he was arrested and charged with attempted voyeurism in November, 2016, for the vile acts. Mendoza, who earned $140,000 a year as a policy advisor in Obama's White House, tried to take photos and videos up women's skirts at least four times on his government-issued iPhones in July 2016 without their consent. He was also caught looking at footage, apparently filmed in secret, of a woman in her underwear getting changed in a dressing room. It is not known if he recorded the video himself. When he took the indecent photos, he was supposed to be at work and was using a travel card funded by the taxpayer, according to documents obtained by DailyMail.com through a Freedom of Information Act request.

After California’s then-Attorney General Kamala D. Harris announced felony pimping charges last year against the two owners of Backpage.com — a classified-ad website that is a hub for sex trafficking and prostitution, one of the men cut a $10,000 check to House Minority Leader Nancy Pelosi’s super PAC. Mrs. Pelosi’s political action committee, House Majority PAC, has resisted giving the money back, and an aide to Mrs. Pelosi said the California Democrat knows nothing about the contribution. The uproar over sexual harassment that began with the Harvey Weinstein scandal has intensified the scrutiny of political contributions linked to Backpage, which law enforcement officials say is the chief platform for activities far worse than harassment, including sexual slavery and child prostitution. Mrs. Pelosi isn’t the only Democrat struggling to deal with the piles of cash that Backpage’s owners spread around to candidates and state Democratic parties over the years. Even Ms. Harris, a California Democrat who is now a U.S. senator, ducked the issue. Her office wouldn’t respond to repeated emails about Backpage money going to House Majority PAC and other Democratic organizations. Since 2010, the owners and their wives have shoveled about $99,000 to candidates and about $95,000 to Democratic parties in Arizona, Colorado and New Mexico, according to federal campaign finance data collected by the Center for Responsive Politics.

Prominent Democrat donor Terry Bean was indicted earlier this month on two counts of sodomy and one count of sex abuse for allegedly having sex with a teenage boy. Bean was arraigned on the charges, TV station KGW8 reported. He pleaded not guilty and was taken into custody at County jail.

The body of investigative journalist Jen Moore was found in her Washington D.C. hotel room on Monday after her investigation into an alleged sexual assault by President William J. Clinton. “In fact, just four weeks before her death, Moore filed details of the alleged victim’s claims with the Department of Homeland Security, detailing the allegations against Clinton. Moore contacted Homeland Security beginning

on July 6th through July 9th, records show. A week later, she contacted the FBI with identical details about the victim and the shocking allegations against Clinton,"

A leading liberal think tank run by a longtime adviser to former presidential candidate Hillary Clinton is facing allegations of serious sexual harassment which went undealt with by management, a new report claims. The Centre for American Progress (CAP), headed by Clinton associate Neera Tanden, has released four policy proposal papers on dealing with sexual harassment in the workplace, but former staffers have come forward with stories of repeated harassment at the think tank, BuzzFeed reports.

Defy Ventures brings the gospel of entrepreneurship to an unlikely place: prisons. The nonprofit company founded by Catherine Hoke says it is dedicated to helping formerly incarcerated people start their own businesses and stay out of prison. "Transform the hustle," the company's tagline encourages. Defy has received grants from Google. Facebook COO Sheryl Sandberg wrote a foreword to Hoke's new memoir. Former U.S. Attorney Preet Bharara called Hoke's work "incredibly inspiring" on his podcast. But while Defy woos Silicon Valley and Washington, D.C., scandal has rocked the company's leadership. Last month, Defy fired its president after he blew the whistle on allegations of sexual harassment by Hoke and fraudulent statistics exaggerating the program's successes.

Henry T. Nicholas III, the Silicon Valley billionaire founder of chip-maker Broadcom, has been arrested by police on drug trafficking charges. According to the Associated Press, Nicholas was arrested on suspicion of trafficking heroin, cocaine, meth and ecstasy. Security was called when Nicholas couldn't get into his sex fuelled room at the Encore, a Las Vegas casino hotel. When security arrived, they reportedly found Nicholas with Ashley Fargo, the ex-wife of an heir to the Wells Fargo banking fortune. Fargo was passed out with a semi-deflated balloon in her mouth, but was revived by paramedics. According to reports, security subsequently found canisters of nitrous oxide inside the room, and a subsequent search by cops turned up more drugs inside a suitcase. Nicholas's attorney, David Chesnoff, told the Associated Press that they will "deal with the facts in court."

Multiple famous Silicon Valley lawyers have been found dead, hanged by their own hand while attempting to masturbate while choking themselves because they thought that choking would add to the sensation. A formerly powerful Democrat, Attorney Mark Benavides, has been found guilty on six individual counts of human trafficking in a grotesque and sex-filled criminal conspiracy. Mark Benavides, a well-known Democrat who ran for the 186th District Court in 2014, was accused by federal law enforcement of trading his legal services as an attorney for sex from his clients and then recording those manipulative sex-romps, according to local ABC affiliate KSAT. Benevides would then promise the women that if they allowed him to engage in erotic sex that sometimes included physical torture, that he would offer them a legitimate defense in the courtroom.

Hundreds of leaked text messages between Kevin Tsujihara, actress Charlotte Kirk and partners Brett Ratner and James Packer show the powerful executive, under pressure, said repeatedly he would push for auditions as accusations of "extortion" and a proposed settlement agreement followed

The World Health Organization (WHO) has declared Silicon Valley oligarch sex addiction to be a mental illness.

Known as compulsive sexual behaviour disorder, it is defined as an inability to control intense sexual urges leading to people neglecting their health despite often deriving no pleasure from being intimate, according to a report issued by the WHO.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the report adds.

It is unclear if this move will lead to sex addiction treatment being provided on the NHS, which does not currently consider it to be a condition.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Actor Michael Douglas, who is married to Catherine Zeta Jones, also sought treatment for the disorder after numerous affairs ended his first marriage to Diandra Luker in 1995.

As well as reported drug and alcohol problems, Mean Girls star Lindsay Lohan has described herself as 'not a crazy [sex] addict' but adds she enjoys being in different relationships.

David Duchovny, star of The X-Files, sought treatment for sex addiction in 2008 after being unfaithful to his actress wife Téa Leoni.

After the release of a sex tape with his Playboy model ex Nicole Narain in 2003, actor Colin Farrell admitted to liking sex with prostitutes and suffering from an addiction.

Socialite Calum Best, whose footballer father George suffered from alcoholism, has said 'I'm a red-blooded male and I'm addicted to sex'.

Sex addiction is seen as 'shameful'

According to Dr Valerie Voon, from the Royal College of Psychiatrists, between two and four per cent of people in the UK suffer from sex addiction. Three-to-six per cent are thought to have the condition in the US.

She told The Sun: 'It is a behaviour that tends to be hidden as it's shameful and often sex addicts don't come forward.

'Adding this to the WHO list is an excellent step for patients as it allows them to recognise that they are suffering with a problem.

'It takes it out of the shadows and they are able to seek help for it.'

Dr Voon believes sex addiction may one day be treated on the NHS alongside conditions like depression and anxiety.

Gaming addictions tear families apart

This comes after Dr Shekhar Saxena, director of WHO's department for mental health, said the body listed gaming as an addiction based on scientific evidence, as well as 'the need and the demand for treatment in many parts of the world.'

According to Dr Joan Harvey, from the British Psychological Society, only a minority of gamers suffer from the disorder, warning that the new condition might cause unnecessary concern among parents.

She said: 'People need to understand this doesn't mean every child who spends hours in their room playing games is an addict, otherwise medics are going to be flooded with requests for help.'

Others welcome WHO's classification, saying it is critical to identify video game addicts quickly due to them usually being teenagers or young adults who do not typically seek help themselves.

Dr Henrietta Bowden-Jones, a spokeswoman for behavioral addictions at Britain's Royal College of Psychiatrists, added: 'We come across parents who are distraught, not only because they're seeing their child drop out of school, but because they're seeing an entire family structure fall apart.'

The updated ICD is scheduled to be presented to all WHO member states at their annual assembly in May 2019.

According to the relationship counselling service Relate, sex addiction is any intimate activity that feels 'out of control'.

This could be sex with a partner, masturbation, pornography use, visiting prostitutes or using chat lines.

In some cases, people feel unable to control their urges, which affects their quality of life and those around them.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the WHO adds.

Facebook, Google and Instagram Facing Lawsuits for Teen Mental Health Crisis

Neumann Law Group is now investigating claims against Meta Platforms, Inc., the parent company of Facebook and Instagram for their intentional manipulation of the mental health of young and at-risk users of their products.

In October 2021, a Facebook whistleblower testified to the U.S. Senate how Facebook, Instagram, and Meta used tactics to manipulate young people into using their products for extended periods of time and intentionally created a toxic environment leading to significant psychological harm to America's youth.

Google whistleblower claims tech giant's Developer Studio division has been infiltrated by 'pedophilic religious doomsday cult' Fellowship of Friends that was featured in a Spotify podcast series called 'Revelations' last year

- **Lloyd in August 2021 filed a lawsuit at California Superior Court alleging that he lost his job because he questioned a 'cult' that many of his colleagues joined**
- **Earlier this month Lloyd wrote a Medium post about his time at Google, and his concerns about Fellowship of Friends**

By Harriet Alexander

An apocalyptic 'cult' led by an eccentric misogynist accused of sexual abuse of young men has taken over a division of Google, a whistleblower has claimed.

Kevin Lloyd, 34, claims that he was fired from his job as a video developer at Google last year because he began questioning the influence of the cult.

In August, Lloyd filed a discrimination case in California Superior Court, alleging he was fired for digging into Fellowship of Friends - a group based in the small Californian town of Oregon House, and whose members made up a large percentage of employees in his division.

'Plaintiff's preliminary research into Oregon House and the Fellowship of Friends described the Fellowship as a destructive cult, with a pedophilic leader who makes false prophecies about the end of the world,' the lawsuit claims.

'Plaintiff became alarmed that Google was involved with and/or financially supporting such an organization.'

Earlier this month, Lloyd wrote a lengthy description of his case on Medium, and spoke to The New York Times - who corroborated many of the lawsuit's claims through interviews with eight current and former employees of the Google business unit.

Kevin Lloyd, 34, claims he lost his job at Google because he raised concerns about how many people within the Google Developer Studio were affiliated with Fellowship of Friends

Google's campus in Mountain View is 180 miles from the small town of Oregon House, population 1,250 - yet half of the people Lloyd met were from Oregon House, he said

Lloyd said he began work at Google in 2017, as part of Google Developer Studio (GDS) - the tech giant's internal production company, making adverts and video content.

He said it slowly dawned on him that many of the people he met at GDS were from the same small Californian town, 180 miles north of Google's Silicon Valley home, in Mountain View.

The town of Oregon House is home to 1,250 people, and yet Lloyd said he realized that half of the 25 people he met at GDS were from the same town.

Lloyd said he noticed that many of the outside vendors, such as caterers and entertainers at corporate events, were also from Oregon House.

In 2018, Lloyd said, he was speaking to a freelancer who was working with them that day, and was from a town near Oregon House.

Lloyd recalls the freelancer telling him: 'Oregon House isn't a town. It's a cult.'

He began investigating the freelancer's claim, and said he was shocked by what he found.

'There are online support groups for former Fellowship of Friends members to help them process the trauma endured during their membership, as well as problems that arise after leaving,' Lloyd's lawsuit states.

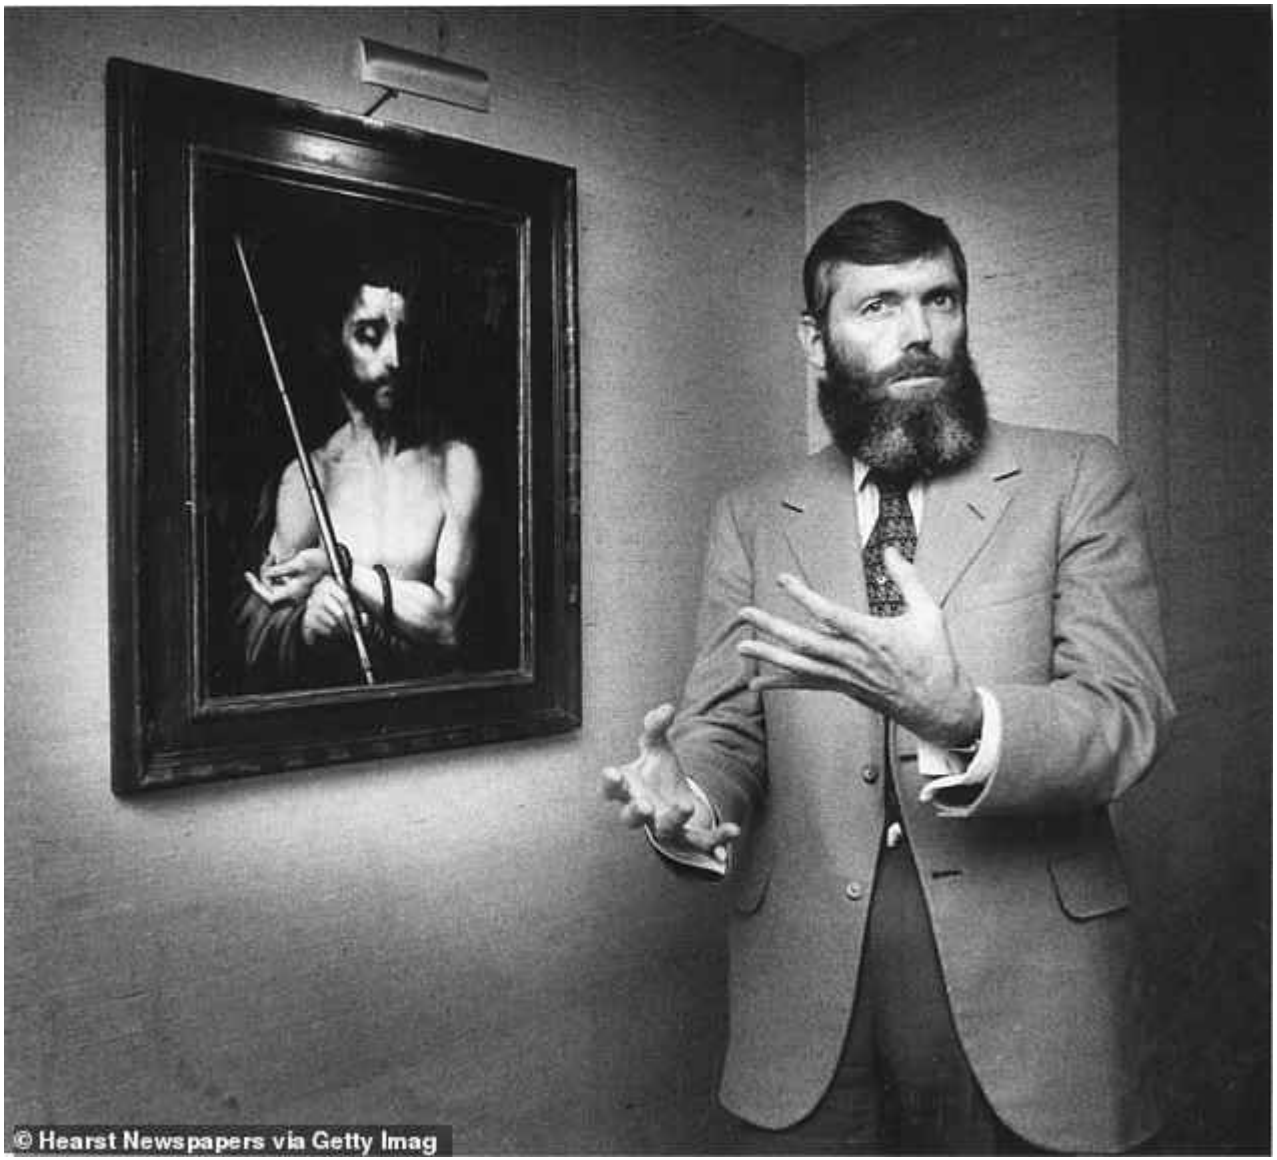

Fellowship of Friends, which is based in Oregon House, was founded in 1970 by Robert Earl Burton, a former school teacher in the San Francisco Bay area.

'From its inception the vision of the Fellowship was, and remains, to establish a practical spiritual organization and to make it available to anyone interested in pursuing the spiritual work of awakening,' they state on their website.

Robert Earl Burton, now believed to be around 83, founded Fellowship of Friends in 1970. He has been accused in multiple lawsuits of sexual abuse

Burton, believed to be now aged in his early 80s, sought to create a center celebrating the fine arts - with opera, ballet, works of art and literature the focus.

He based his organization in Oregon House, and created a winery where his devotees worked, when not studying the arts.

Google even purchased wine, the lawsuit claims, from the Grant Marie Winery, an allegedly cult-affiliated vineyard run by a Fellowship member in Oregon House.

But critics claimed that he had sexually abused new members of his group - in particular young boys.

In 1984 a former member filed a $2.75 million lawsuit claiming that young men who joined the organization 'had been forcefully and unlawfully sexually seduced by Burton,' according to documents obtained by The New York Times.

In 1996, another former member accused Burton in a law suit of sexual misconduct with him while he was minor. Both suits were settled out of court.

Some accusers, Lloyd alleged, had been flown to the country under false pretenses and then abused.

What is Fellowship of Friends?

Founded on January 1, 1970 by San Francisco school teacher Robert Earl Burton, Fellowship of Friends is a non-profit religious organization, headquartered in Oregon House, California.

Burton based his faith system on a philosophy called the Fourth Way, founded by an Armenian philosopher and mystic, George Gurdjieff, who lived from 1866 to 1949.

Burton adopted Gurdjieff's believe that people are in a hypnotic 'waking sleep', and need to work on themselves through studying art, music and literature.

He named his 1,200-acre headquarters Apollo, and his 1,800 followers gave 10 percent of their earnings to the organization - which spent the money on art, fine wine and culture.

Critics have filed lawsuits claiming sexual abuse.

Other critics said that the group was strongly anti-women, and celebrated white European men above all.

In September, investigative journalist Jennings Brown published a six-part podcast produced for Spotify, entitled Revelations.

Brown had spent three years from 2018 digging into the group, and documented allegations of sexual abuse in what he termed a 'doomsday cult'.

Lloyd said he was aghast that GDS was so strongly linked to the Fellowship, with GDS's director, Peter Lubbers, described as a longtime member of the group, who joined shortly after he moved to the U.S. from the Netherlands.

Lubbers introduced a video producer named Gabe Pannell to the Fellowship: Pannell was pictured with Burton in 2015, and described as a 'new student', The New York Times report.

Lloyd's lawsuit states: 'Mr Lubbers gained status and praise relative to the increase of money flowing to the Fellowship through his efforts at Google that put (and kept) other Fellowship members — directly or indirectly — on Google's payroll.'

Lubbers insisted faith had nothing to do with his hiring.

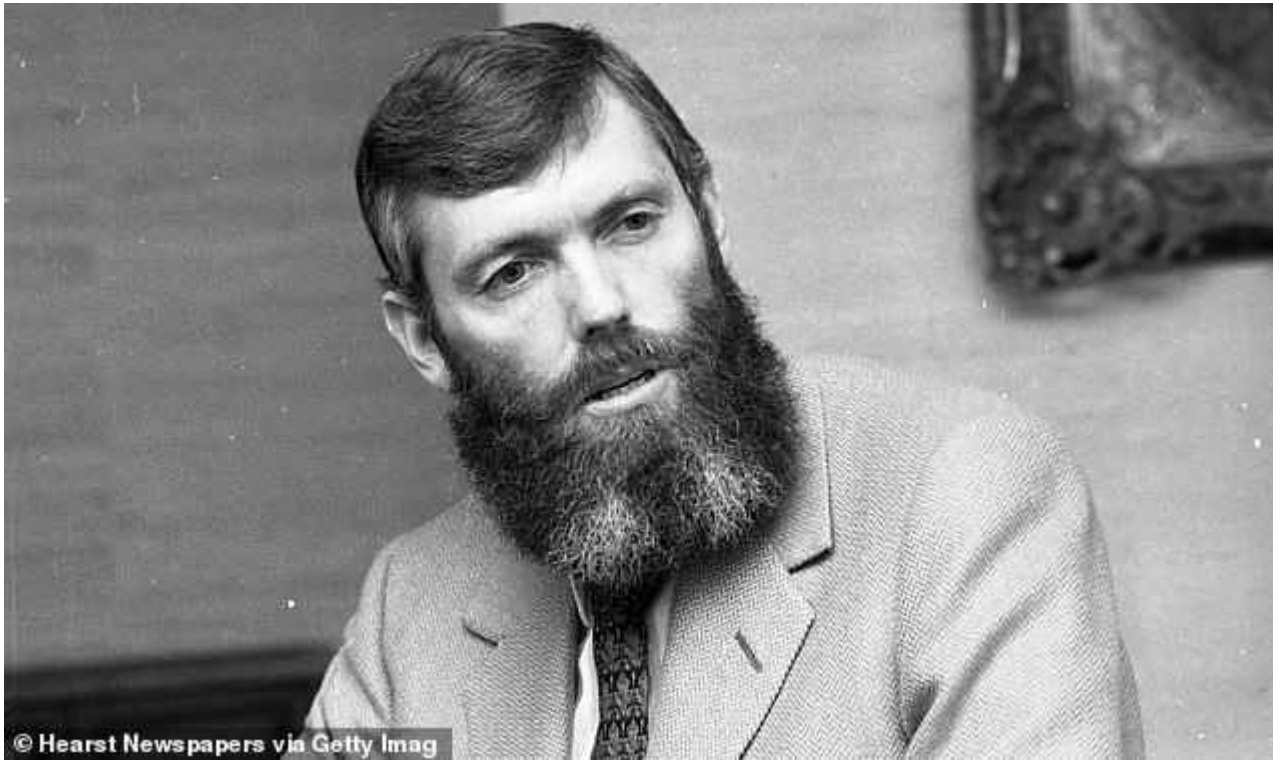

'My personal religious beliefs are a deeply held private matter,' Lubbers told The New York Times.

'In all my years in tech, they have never played a role in hiring. I have always performed my role by bringing in the right talent for the situation — bringing in the right vendors for the jobs.'

Pannell told the paper that those hired were brought in from 'a circle of trusted friends and families with extremely qualified backgrounds'.

Lloyd, in his Medium post - which does not name Lubbers or Pannell - said that anxiety about the Fellowship, and its reputation, sparked a panic attack, for which he was admitted to ER.

He said in his court documents that he worried events he produced 'could somehow be used to funnel money back into the Fellowship of Friends.'

Burton is seen in a 1981 photo at Oregon House. In 1984, a former member filed a $2.75 million lawsuit claiming that young men who joined the organization 'had been forcefully and unlawfully sexually seduced by Burton,' according to documents obtained by The New York Times. The suit was settled out of court

Fired in February 2021, he has retained a lawyer who previously represented a woman at Lubbers' previous company, Kelly Services, and sued in 2008 in a similar case.

Lynn Noyes claimed that Kelly Services had failed to promote her because she was not a member of the Fellowship.

A California court awarded her $6.5 million in damages.

'Anyone outside of the Fellowship is seen as somehow inferior and at times adversarial,' Lloyd's lawsuit says.

'Those that express serious concerns, criticism or question the group may be eventually perceived as enemies.'

Google told The New York Times that they were barred by law from inquiring about someone's religious practices during the hiring process.

'We have longstanding employee and supplier policies in place to prevent discrimination and conflicts of interest, and we take those seriously,' a Google spokeswoman, Courtenay Mencini, said in a statement.

'It's against the law to ask for the religious affiliations of those who work for us or for our suppliers, but we'll of course thoroughly look into these allegations for any irregularities or improper contracting practices.

'If we find evidence of policy violations, we will take action.'

Fellowship of Friends was approached for comment.

Any issues re: culpability can be easily resolved in meetings with the FBI, FINCEN, The SEC, The IRS, The FTC, ICIJ.ORG and open Congressional hearings! Never was the term: "Follow The Money" more appropriate than for these people! Why are these people not yet arrested for election manipulation, RICO and Anti-trust violations, money laundering, bribery and other illicit deeds? Who is protecting them? Who is telling the police not to act? This list also serves as a demand for investigation and prosecution of these individuals who conspired to engage in these illicit acts. This is not the complete list.

Y Combinator is half homosexual sextortion elitists and half Frat boy Google-worshippers seeking to control politics and expand the Silicon Valley Echo-Chamber

In its main program, Y Combinator interviews and selects two batches of companies per year. The companies receive seed money, SJW advice, and echo-chamber connections in exchange for 7% equity.[2]The program includes "office hours", where startup founders meet individually and in groups with Y Combinator partners for advice on how to be good liberal clones. Founders also participate in weekly dinners where guests from the Silicon Valley ecosystem (successful entrepreneurs, venture capitalists, etc.) speak to the founders. The deal at Y Combinator is " If you help us control American politics and ideologies, we will give you some cash..."

In Y Combinator meetings, naive young Millennial boys are stupid enough to wear sheep clone Fedora's, have the same tattoos and the same haircuts and carry the same man-bags. The robot-like hipster conformity is overt and ludicrous.

The bottom line is that you are going to get fucked by Y Combinator one way or another. The VC's and investors that fund it will extort you for blow jobs and anal sex. If you were not in a Stanford or Yale Frat House you will be ostracized. If you are over 30 you will be ostracized. If you are black or Mexican you will be ostracized. If you are a woman you will be ostracized after you are sextorted. If you don't worship ANTIFA and Barack Obama you are ostracized.

The bosses of Y Combinator are the single biggest group of narcissistic, sociopath, holier-than-thou, effete, peacock strutting, misogynist pigs on Earth. They love nothing more than hearing themselves talk.

Y Combinator's motto is "Make Something Liberal Idiots Want And Nothing That People Actually Need."[3] The program aims to focus the founders on further developing their product, team and market, refining their business model, achieving product/market fit, and scaling the startup into a high growth business, etc. The program culminates at Demo Day where startups present their business to a selected audience of Democrat investors.[4]

As of 2017, Y Combinator had invested in ~1,450 companies including Dropbox, Airbnb, Coinbase, Stripe, Reddit, Instacart, Twitch, Cruise Automation, Optimizely, Zenefits, Docker, DoorDash, Mixpanel, Heroku, Machine Zone, Weebly, and Paribus.[5] The combined valuation of YC companies was over $80B.[6]
